

For Readers Who Want Their Portal Fantasy High-Stakes: AM I AM Recommends *Portals* by Chester Craig

A science fiction epic about grief, discovery, and a forty-seven-world network on the verge of collapse

Los Angeles, California Jul 30, 2026 ([Issuewire.com](https://www.issuewire.com)) - AM I AM is recommending *Portals* by Chester Craig to readers drawn to science fiction that pairs personal stakes with large-scale worldbuilding — a missing-family mystery that opens into a fully realized network of connected worlds, a villain whose ambition threatens to tear that network apart, and a protagonist forced to choose between the person she loves and the system she's responsible for. Readers who enjoy archaeological mysteries, hard-science portal mechanics, and stories that treat grief as seriously as they treat spectacle will find *Portals* a strong fit.

The novel is part of the growing AM I AM catalog published under the Dex System, AM I AM's AI-powered creative engine, which spans multiple genres and authors.
