

Genie.ph brings AI-assisted custom cake pricing to Metro Cebu

Cebu customers can upload a cake design, get the price instantly, personalize it, and have it delivered within the same day.

ORDER CUSTOM CAKES IN 60 MINUTES

Central Visayas, Philippines Jul 14, 2026 ([Issuewire.com](https://www.issuewire.com)) - Genie.ph, a Cebu-founded online cake marketplace, is giving customers a simpler way to order custom cakes.

Instead of messaging several bakers to ask about price, design, and availability, customers can upload a cake photo to Genie.ph, get the price instantly, adjust the details, and place an order online.

Customers can personalize important details such as the cake size, icing, colors, message, and toppers before checkout. The order is then fulfilled by Genie.ph's vetted cake shops serving Metro Cebu.

"People often know what they want their cake to look like, but they do not always know who can make it, how much it will cost, or whether it can be ready on time," said Alan Caballes, founder of Genie.ph. "We built Genie.ph to put those answers in one place and make custom cake ordering easier."

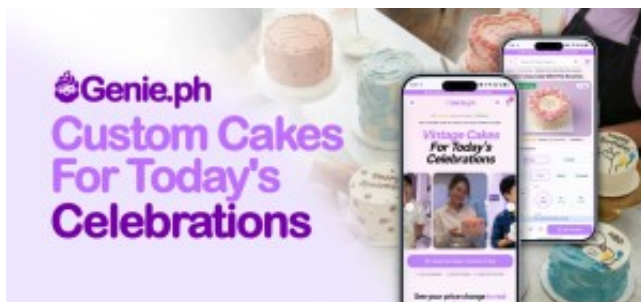

Genie.ph serves customers in Cebu City, Mandaue City, Lapu-Lapu City, Talisay City, and nearby areas. Delivery timing depends on the design, location, baker availability, and order schedule.

Since launching in 2026, Genie.ph has processed hundreds of orders and provided thousands of AI-assisted price estimates.

Customers can visit <https://genie.ph> to upload a cake design or browse available cake ideas.

About Genie.ph

Genie.ph is a Cebu-founded online cake marketplace for custom cakes and rush celebrations. Customers can browse cake ideas or upload their own design, get instant pricing, personalize the cake, and have it delivered across Metro Cebu on the same day. Learn more at <https://genie.ph>.
