

# Global Real Estate Pro Unveils "GLOBAL OS"

The World's First Fully Integrated Real Estate Operating System

**Bergen County, New Jersey Jul 10, 2026 ([Issuewire.com](http://Issuewire.com))** - Global Real Estate Pro, one of the fastest-growing multi-division, multi-state, and internationally connected real estate brokerages, today announced the launch of **GLOBAL OS**, a groundbreaking operating system engineered to transform how real estate professionals manage, scale, and grow their businesses.

GLOBAL OS is the industry's first **fully unified operating system**, consolidating more than 40

essential tools into one seamless platform. Designed and developed by **Broker of Record Peter Ingrasselino** and **co-creator Anthony Savarese**, GLOBAL OS delivers an unprecedented level of automation, integration, and global connectivity.

**“GLOBAL OS is not a CRM or a dashboard — it is the entire business, organized, automated, and elevated,”** said **Peter Ingrasselino**, Broker of Record and co-creator. **“We built GLOBAL OS to give our agents every advantage the industry has been missing. This is the future of real estate operations.”**

**“Our mission was simple: eliminate fragmentation,”** added **co-creator Anthony Savarese**. **“Agents shouldn’t have to juggle 20 different apps to run their business. GLOBAL OS brings everything together — leads, marketing, communication, transactions, AI, global expansion — in one powerful operating system.”**

## **A Complete Operating System for Modern Real Estate**

GLOBAL OS integrates every mission-critical function an agent needs, including:

### **Lead & Marketing Systems**

- Weekly uploaded leads
- Lead Sphere app
- Automated routing, scoring, and drip campaigns
- AI follow-up scripts
- Social media auto-posting
- Meta ad center
- Video creation, TV ads, podcast tools
- Luxury branding templates

### **Communication & Productivity**

- Internal chat, team chat, division chat
- Integrated texting and telephone system
- Email sync and voicemail drops
- Personal, team, and division calendars
- Task manager and production dashboards

### **GLOBAL WORLD Integration**

- Virtual offices
- Division headquarters
- Global collaboration rooms
- Training centers
- International partner offices
- 3D property tours

### **MLS & Transaction Management**

- Statewide and border-wide MLS access
- Listing management and CMA tools

- Market trend dashboards
- Custom digital signature system
- Filing cabinet for personal transactions
- Client portal with full transparency

### **Financial & Business Tools**

- Expense tracker
- Tax season organizer
- Commission calculator
- Revenue share center
- NASD stock center
- Year-end financial reports

### **AI Command Center**

- AI script generator
- AI video creator
- AI cloning center
- AI marketing studio
- AI recruiting suite

### **International Expansion Tools**

- Global affiliate access
- Cross-border transaction support
- International listings
- Currency tools
- Dubai partnership portal

### **Data & CRM Ecosystem**

- Full CRM
- Global Real Estate Pro app
- International Real Estate app
- Lead Sphere app
- Client portal app
- USPS zip code database for farming and targeting

GLOBAL OS replaces dozens of third-party systems — CRM platforms, marketing suites, transaction software, MLS portals, communication apps, AI tools, financial software, recruiting systems, and metaverse access — consolidating them into one luxury-grade operating system.

### **A New Standard for Agent Empowerment**

GLOBAL OS supports every division within Global Real Estate Pro, including Residential, Luxury, Commercial, International, Beach Bum Real Estate, and Sacrifice & Service. The platform also integrates the brokerage's **revenue share program**, allowing agents to earn through production, introductions, team growth, division performance, leadership roles, and international expansion.

**“GLOBAL OS gives our agents more than tools — it gives them power,”** Ingrasselino said. **“Power to scale, power to automate, power to grow globally, and power to operate at a level the industry has never seen.”**

### **About Global Real Estate Pro**

Global Real Estate Pro is a multi-division, multi-state, and internationally connected real estate brokerage serving New Jersey, New York, Pennsylvania, Florida, the Caribbean, and Europe. Known for its luxury branding, global reach, and innovative technology — including its immersive 3D metaverse, GLOBAL WORLD — the brokerage delivers world-class service across residential, luxury, commercial, waterfront, and international markets.

### **Executive Bios**

#### **Peter Ingrasselino — Broker of Record & Co-Creator of GLOBAL OS**

Peter is a global lifestyle architect, luxury branding expert, and the visionary behind Global Real Estate Pro’s multi-division ecosystem and GLOBAL WORLD metaverse. His leadership spans hospitality, culinary arts, authorship, global travel, and international real estate. Peter’s mission is to redefine how agents operate, scale, and succeed in a global marketplace.

#### **Anthony Savarese — Co-Creator of GLOBAL OS**

Anthony is the systems architect behind GLOBAL OS, responsible for engineering the unified infrastructure that powers the operating system. His expertise in workflow automation, digital integration, and scalable technology solutions helped transform GLOBAL OS from concept to reality. Anthony’s focus: eliminate fragmentation and empower agents with a single, powerful operating system.
