

Lose the Signal: Dex System Publishing's Off-Grid Tech-Thriller Picks

Networked-world thrillers for readers unplugging from their own devices this summer.

New Rochelle, New York Jul 30, 2026 (Issuewire.com) - In a fitting hook for readers who've just lost their own signal on vacation, Dex System Publishing is featuring tech-thrillers built around networked worlds and the cost of staying connected — a theme that resonates for anyone who spent the Fourth of July holiday glued to a group chat instead of the fireworks.

Sovereign Sync by Rane Corvus leads the list, continuing the series referenced earlier in the campaign, alongside The Perpetual Twins: The Null Settlement by Ronald Bartholomew, E+Drive: The Good Ghost A Tale of Choice — Ronald Bartholomew, and The Silent Revolution by Thomas Markey.

"There's an irony in reading about lost signal while you're actually unplugged," a Dex System spokesperson said. "These books are a way of engaging with connectivity anxiety from a safe distance."

Readers following the Sovereign Sync series can cross-reference Sovereign Sync II, featured earlier this month, for full continuity. The release is well suited to tech-adjacent lifestyle press covering digital detox and unplugging trends.

The ironic framing — stories about losing the signal, for readers who just did — gives this release a built-in hook for outlets running end-of-summer digital wellness or unplugging coverage. All four titles are available now through the standard catalog links below, with review copies available on request.
