

Michelle Davis, FNP-BC: Experienced Family Nurse Practitioner Dedicated to Patient Education and Comprehensive Care

Board-Certified Nurse Practitioner Brings More Than Three Decades of Nursing Experience to Pediatric and Adult Primary Care

Charleston, South Carolina Jul 17, 2026 ([Issuewire.com](https://www.Issuewire.com)) - Michelle Davis, FNP-BC, is a Board-Certified Family Nurse Practitioner with more than 30 years of nursing experience and over two decades of advanced practice expertise. Throughout her career, she has remained dedicated to delivering

compassionate, patient-centered care while empowering individuals through education, prevention, and a deeper understanding of their health.

Specializing in pediatric and adult primary care, Michelle provides comprehensive healthcare services focused on improving patient outcomes through thoughtful clinical decision-making, medication management, and individualized treatment plans. Her approach is guided by empathy, professionalism, and a commitment to ensuring that every patient feels informed and confident in their healthcare journey.

A central part of Michelle's practice is helping patients better understand their medications and treatment plans. She believes effective healthcare extends beyond prescribing medications—it requires ensuring that patients understand how treatments work, how to use them safely, and how different medications may interact. By prioritizing education and communication, she helps patients take an active role in managing their health.

Michelle earned her Bachelor of Science in Nursing from Clemson University in 1988 before completing her Master of Science in Nursing at the Medical University of South Carolina in 1993. She later earned her Family Nurse Practitioner certification from the University of South Carolina in 1997 and maintains national certification through the American Nurses Credentialing Center (ANCC) as a Family Nurse Practitioner.

Before transitioning fully into advanced practice, Michelle developed a strong clinical foundation as a registered nurse across a variety of high-acuity healthcare environments. Her nursing experience includes work in intensive care, emergency care, telemetry, medical-surgical trauma, neuro intensive care, burn care, and trauma emergency services. This diverse background provided her with extensive experience managing complex medical situations and caring for patients across all stages of life.

Throughout her career, Michelle has also demonstrated a commitment to healthcare education beyond the clinical setting. Earlier in her career, while working in Mount Pleasant, she participated in bi-monthly Lunch and Learn sessions at Roper Hospital and delivered educational presentations through local churches and health fairs. These opportunities reflected her dedication to increasing health awareness and helping communities better understand important medical topics.

Michelle credits her professional success to empathy, dedication, and maintaining the highest standards of professionalism. These values have shaped her approach to patient care and have allowed her to build lasting relationships with the individuals and families she serves. Looking ahead, Michelle continues to seek opportunities for professional growth, including expanding her expertise in areas such as wound care.

Through decades of service, clinical excellence, and a passion for patient education, Michelle Davis continues to make a meaningful impact in healthcare by providing knowledgeable, compassionate, and comprehensive care to the communities she serves.
