

Moneroist.com Launches Community-Driven Platform for the Monero (XMR) Ecosystem

Moneroist.com is introducing a community-curated directory, instant crypto swaps, an uncensored forum, and privacy resources for Monero users.

Alvsborgs Lan, Sweden Jul 16, 2026 ([Issuewire.com](https://www.issuewire.com)) - Moneroist.com, today, announced the official opening of its community-driven platform designed to cater to the growing Monero (XMR) ecosystem. The platform prioritizes privacy, open collaboration, and user engagement, uniting verified resources, discussion boards, and critical tools for those Monero supporters and users.

[Moneroist](https://moneroist.com) serves as the one-stop shop for everything Monero. It includes listings of merchants accepting Monero (XMR), privacy wallets, no-KYC cryptocurrency exchanges, mining pools, and privacy-first software. In addition, there's a community forum with zero-censorship, to encourage open discussions, knowledge sharing and feedback within the community.

Unlike traditional cryptocurrency directories under the oversight of centralized operators, Moneroist.com relies on community input and verification to ensure up-to-date listings. Members can provide new resources, report outdated ones, and help other users identify trusted services across the privacy ecosystem.

Apart from the searchable directory, the platform provides fast cryptocurrency swapping options. The aim here is to enable users to swap supported cryptocurrencies instantly without compromising their privacy.

"Monero's ecosystem is built on privacy, decentralization, and inclusiveness," a representative of Moneroist.com stated. "We want to make it easy for users to access credible sources and facilitate payments for those businesses accepting XMR. We hope to build an ecosystem maintained by the community itself."

[Moneroist.com has](#) the following key features:

- Community-vetted directory of businesses accepting Monero (XMR)
- List of anonymous wallets and privacy software
- Directory of no-KYC crypto exchanges
- Fast cryptocurrency swap services
- Monero mining pools directory
- A forum where users can discuss issues uncensored
- Community-driven submission and verification process

With increasing demand for financial privacy and decentralization technologies, Moneroist.com tries to make it easier to discover quality resources without the fragmentation typical in the privacy cryptocurrency ecosystem. By providing discovery tools along with an active community, the platform offers both newcomers and experienced users one place to discover the Monero ecosystem.

This platform is open for merchants, developers, miners, privacy advocates, and cryptocurrency community members in general. Anyone can contribute to listings, take part in discussions, and help improve the quality of resources available.

Moneroist.com is now available to anyone everywhere in the world. For more information, visit <https://moneroist.com>.

About Moneroist

Moneroist.com is a community-driven platform dedicated to the Monero (XMR) ecosystem, offering a community-vetted directory of merchants that accept Monero, no-KYC exchanges, privacy wallets, mining pools, privacy tools, and fast crypto swaps. In addition to the directory, Moneroist features an open discussion forum free of censorship. By allowing community verifications and contributions, Moneroist.com helps users access trustworthy privacy-oriented services while supporting the growth of the Monero economy.
