

New Book Chronicles the History of a Community Booster Club That Changed Generations

Dennis Pysnack's *More Than 25 Cents* Preserves the Inspiring Legacy of Grassroots Leadership, Community Service, and Youth Development

More Than 25 Cents

DENNIS PYSNACK

Seneca Falls, New York Jul 21, 2026 (Issuewire.com) - Communities are built by people who choose to serve others, often without recognition or reward. In his heartfelt new book, *More Than 25 Cents*, author Dennis Pysnack shares the remarkable community booster club story behind decades of volunteer service that strengthened families, inspired young athletes, and united an entire town around a common purpose.

Far more than a personal memoir, *More Than 25 Cents* is a compelling grassroots community building book that documents the lasting impact of ordinary citizens working together to create extraordinary opportunities. Through real-life experiences, historical reflections, and memorable stories, Pysnack illustrates how local leadership and community involvement can leave a legacy that spans generations.

At the center of the book is the history of the Seneca Falls Booster Club, an organization that became a driving force behind youth sports, community projects, charitable events, and civic engagement. The book highlights how volunteers, parents, coaches, and local leaders collaborated to build programs that encouraged teamwork, leadership, and pride while strengthening the social fabric of the community.

Rather than focusing solely on athletics, *More Than 25 Cents* demonstrates how community organizations create opportunities that extend well beyond the playing field. Readers discover inspiring accounts of neighbors supporting one another, fundraising initiatives that transformed local programs, and the dedication required to keep community traditions alive for future generations.

As a comprehensive community organization history book, the publication preserves important stories that might otherwise be forgotten. It offers readers an authentic look at the power of volunteerism and reminds communities everywhere that meaningful change often begins with small acts of service performed consistently over many years.

The book also serves as a tribute to the countless individuals whose contributions helped shape Seneca Falls into a stronger and more connected community. Pysnack honors the volunteers who invested their time, energy, and passion to ensure young people had opportunities to succeed while creating lasting memories for families throughout the region.

"*More Than 25 Cents* is about much more than sports," said Dennis Pysnack. "It's about neighbors helping neighbors, building relationships, and showing how one community can make a lasting difference when people come together with a shared purpose."

Readers interested in community leadership, volunteerism, youth development, local history, and civic engagement will find *More Than 25 Cents* both inspiring and historically significant. The book offers valuable lessons for community leaders, educators, coaches, nonprofit organizations, and anyone who believes in the lasting value of service.

About the Author

Dennis Pysnack is a lifelong community volunteer and advocate for youth development whose years of leadership have helped strengthen programs and organizations throughout Seneca Falls, New York. Through *More Than 25 Cents*, he preserves an important chapter of local history while celebrating the
