

Nordic Service Integration AB Founder Member of Scopism's SIAM Directory, Helping Buyers Find Trusted SIAM Expertise

Scopism, the home of the world-renowned SIAM Body of Knowledge (BoK), has launched its new SIAM Directory today.

Stockholm, Sweden Jul 31, 2026 ([Issuewire.com](https://www.issuewire.com)) - The Scopism SIAM Directory has been created as a new online resource to help organizations easily identify trusted Service Integration and Management (SIAM) providers, consultants and practitioners.

Talking about The SIAM Directory, Bengt Alverborg, a SIAM Directory founding member from [Nordic Service Integration AB](#) said: *"Throughout my career, I've focused on delivering successful outcomes through trust, partnership and collaboration. As organizations navigate increasingly complex supplier ecosystems and rapid technological change, the principles of SIAM are more relevant than ever and*

joining the SIAM Directory felt like a positive step for Nordic Service Integration and a great opportunity to work with organizations looking to achieve SIAM success.”

The SIAM Directory also provides members with access to thought-leadership opportunities, learning materials, community interaction and business enablement services.

Michael Sand, also from [Nordic Service Integration AB](#), added “*Joining the SIAM Directory was a natural next step for us. We have worked with the Scopism team and joining the directory will help us connect with practitioners and organizations who are looking to make better strategic decisions. In particular, our expertise to support organizations looking for a Minimum Viable SIAM, MVSIAM approach.*”

Recognising a gap in the market for a definitive place to find and research proven SIAM experience, Scopism has created the SIAM Directory to be a trusted location for buyers to search and compare capabilities, competencies and location of practitioners.

Director Claire Agutter said: “*The SIAM Directory has been created to help organisations find trusted expertise while giving practitioners and providers a platform to showcase their capabilities. We are delighted to have Nordic Service Integration on board as we strive to make it easier for buyers to identify experienced professionals and strengthen the SIAM ecosystem globally.*”
