

Raising the Standard in Dental Instrument Sterilisation: An Exclusive Educational Evening with Rochelle Fisher

Melbourne, Victoria Jul 1, 2026 ([Issuewire.com](https://www.issuewire.com)) - Dental professionals are invited to enhance their knowledge of infection prevention and instrument reprocessing at the upcoming educational event, **"Raising the Standard in Dental Instrument Sterilisation – An Evening with Rochelle Fisher."** The event is designed to provide practical insights into modern sterilisation workflows, regulatory compliance, and best practices that support safer patient care.

Led by renowned dental educator **Rochelle Fisher**, the session will explore the latest approaches to instrument sterilisation, highlighting efficient workflow design, quality assurance, documentation, and compliance with current standards. Attendees will gain practical strategies to improve sterilisation processes, reduce risks, and strengthen infection prevention protocols within their practices.

The evening is ideal for dentists, dental assistants, oral health therapists, practice managers, hygienists, and the wider dental team who are committed to maintaining the highest standards of patient safety. Participants will have the opportunity to learn from an experienced industry educator while engaging with peers who share a passion for clinical excellence and continuous professional development.

As infection prevention requirements continue to evolve, ongoing education has become essential for every dental practice. This event offers attendees valuable knowledge that can be implemented immediately to improve sterilisation efficiency, support regulatory compliance, and promote a culture of quality and safety throughout the practice.

Dental professionals interested in advancing their sterilisation knowledge are encouraged to register early, as places may be limited.
