

Smooth Jazz Connect Launches on Apple App Store and Google Play for the Global Smooth Jazz Community

A new mobile community platform connects smooth jazz artists, fans, radio, venues, festivals, and industry professionals in one dedicated digital home.

Las Vegas, Nevada Jul 22, 2026 ([IssueWire.com](http://www.IssueWire.com)) - Smooth Jazz Connect Launches on Apple App Store and Google Play as a Dedicated Global Community for the Smooth Jazz World

Smooth Jazz Connect brings artists, fans, radio, venues, festivals, promoters, and music

professionals into one modern mobile platform built specifically for the smooth jazz community.

J Star Entertainment LLC announces the official launch of **Smooth Jazz Connect**, a new mobile community platform created to bring the smooth jazz world together in one dedicated digital destination. The app is now available for iPhone through the Apple App Store and for Android users through Google Play.

Built for fans, artists, musicians, radio hosts, promoters, festivals, venues, media professionals, and music organizations, Smooth Jazz Connect gives the genre its own modern social networking experience. The platform allows members to create profiles, share updates, post photos, videos and audio, discover community activity, connect with fellow smooth jazz supporters, send private messages, follow smooth jazz news, and use AI-powered tools to help create post ideas and captions.

Smooth jazz has always been more than a sound — it is a lifestyle, a culture, and a worldwide community. Smooth Jazz Connect was created to support that community with a dedicated home where conversations, collaborations, artist discovery, fan engagement, and industry networking can happen in one place.

“Smooth Jazz Connect is about giving the smooth jazz world a real digital home,” said Jarel Posey, founder of J Star Entertainment LLC and creator of the platform. “Artists need connection, fans need discovery, radio needs visibility, festivals need community, and the entire industry needs a place built specifically for this music. Smooth Jazz Connect is that place.”

Smooth Jazz Connect is positioned as a next-generation platform for a genre with a passionate global audience. Rather than relying only on general social media platforms, users now have a dedicated app designed around the unique needs of the smooth jazz community — including artist discovery, fan connection, music-centered posting, private messaging, profile personalization, community notifications, smooth jazz news, and tools for sharing meaningful content.

Key features of Smooth Jazz Connect include:

- Personalized member profiles
- Community posting for updates, photos, videos, audio, and announcements
- Discovery tools for artists, fans, radio, venues, festivals, and industry members
- Private messaging and community conversations
- Smooth jazz news and featured content
- Notifications and activity updates
- Privacy, messaging, and profile visibility settings
- AI Assist for captions, post ideas, and community content

Smooth Jazz Connect is available now on the Apple App Store and Google Play.
