

Tate Brothers Show Progress on Super Yacht Obsidian Blade Under Construction

Social media personality Tristan Tate has released a new video tour highlighting the progress of 'Project Obsidian Blade', a 41-metre motor yacht currently under construction in Bodrum, Turkey.

Bodrum, Mugla Jul 17, 2026 ([Issuewire.com](https://www.issuewire.com)) - In footage that has been widely viewed on social media, Tristan Tate walks through the Obsidian Blade's expansive interiors, showcasing roughly 70% completion. He highlights the future layouts with augmented reality overlays that preview the living spaces, pool areas, gym, and entertainment zones.

The superstructure yacht measures 41 metres in length and it will sleep 12 guests in six staterooms, including a full-beam master suite, and carry up to six crew.

Purchased in early 2025 the Obsidian Blade is on track for delivery in 2027 ahead of the Mediterranean season.

A spokesperson for the Tate brothers said:

"The Obsidian Blade represents the next level for the brothers, a floating fortress of freedom and success. Watching it come together is incredibly exciting, and we can't wait to host on board and share this achievement with our community."

Tristan Tate has been actively promoting the build on social media, urging followers to repost and follow

the video for a chance to score an invitation to the star studded launch party. The project has generated massive buzz, underscoring the brothers' continued rise in the world of high stakes luxury.
