COMPLAINTS

Phoenix, Arizona Jul 30, 2026 ([Issuewire.com](https://www.issuewire.com)) - Veritas Global Protection Services, Inc., a Phoenix based provider of vehicle service contracts and related vehicle protection plans, today reaffirmed its commitment to transparent claims handling and responsive customer service as consumer interest in [Veritas Global Protection reviews](#) and vehicle service contract reviews more broadly continues to grow. The company has held accreditation with the Better Business Bureau since 2024 and currently maintains an A+ rating, the Bureau's highest possible grade for business practices.

As more vehicle owners research protection plan providers online before purchasing, the company said its focus remains on the fundamentals that shape those reviews over time: clear contract terms, timely claims decisions, and accessible support when a covered repair is needed. Founded in 2019, Veritas Global Protection operates under the “Peace of Mind, Worldwide” positioning and offers a range of vehicle service contract tiers designed for different vehicle types and mileage levels.

“Our accreditation and rating with the Better Business Bureau reflect an ongoing standard, not a one time achievement,” a company representative said. “Every claim that comes through our process is an opportunity to reinforce the trust that a vehicle service contract is supposed to provide. We continue to invest in the claims and customer service infrastructure that supports that standard as more drivers turn to reviews and third-party ratings to evaluate providers before they buy.”

The announcement comes as the vehicle service contract industry, which serves drivers whose vehicles have exited their original manufacturer warranty, continues to see increased scrutiny from consumers comparing providers on cost, coverage, and reputation. Veritas Global Protection said it will continue to prioritize its BBB standing and its claims responsiveness as part of its broader customer service commitment moving through 2026, alongside ongoing efforts to make its contract terms and coverage

details easier for prospective customers to review before purchase.
