

Alpha Lichfield Taxi Continues to Support Passengers Across Lichfield and Staffordshire

Rubery, Birmingham Aug 22, 2026 ([Issuewire.com](https://www.issuewire.com)) - Getting a taxi is often about more than simply travelling from one place to another.

For someone catching an early morning flight, getting home after an evening out, travelling to a business meeting or taking the family to the railway station, having a dependable local taxi service can make the journey much easier.

Alpha Lichfield Taxi continues to provide local taxi and private hire services for passengers in Lichfield and surrounding areas of Staffordshire.

The company provides transport throughout the day and night, covering everyday local journeys as well as longer trips, airport transfers, railway station journeys, business travel and private hire.

Local Taxi Services Across Lichfield

[Alpha Lichfield Taxi](#) serves passengers throughout Lichfield and nearby communities.

The service covers areas including Lichfield city centre, Burntwood, Fradley, Tamworth, Sutton Coldfield, Fazeley, Rugeley, Whittington, Harlaston, Elford, Alrewas and other surrounding areas.

For local residents, a taxi can be useful for a wide range of everyday journeys.

This can include trips into the city centre, visits to local shops, appointments, evenings out, family journeys and travel to railway stations.

For visitors to the area, local knowledge can also make travelling around Lichfield and Staffordshire more straightforward.

The company aims to provide a comfortable and practical alternative when public transport does not fit around a passenger's plans.

Airport Transfers From Lichfield

Airport travel is another important part of the service provided by Alpha Lichfield Taxi.

The company offers pre-booked transfers from Lichfield to several major airports, including Birmingham Airport, East Midlands Airport, Manchester Airport, Heathrow Airport, Gatwick Airport, Luton Airport, Stansted Airport and London City Airport.

Airport journeys can be arranged for both departures and arrivals.

Passengers can provide their flight details when making a booking, helping the driver plan the journey around the expected travel time.

For airport arrivals, a meet and greet service is also available.

This can be particularly useful for passengers who are returning from a holiday or business trip and want their onward journey arranged before they land.

Birmingham Airport is a popular destination for passengers travelling from Lichfield.

The journey can take around 25 to 35 minutes in normal traffic, although the actual journey time can vary depending on road conditions and traffic levels.

Booking an airport transfer in advance can give passengers one less thing to worry about when preparing for a flight.

Travel for Families and Larger Groups

Not every journey involves just one or two passengers.

Families, friends and groups may need a larger vehicle when travelling together, particularly when there is luggage involved.

Alpha Lichfield Taxi has vehicles available for groups of up to eight passengers.

This can make the service suitable for family airport journeys, days out, sporting events, celebrations and other group travel.

Passengers can provide information about the number of people travelling and the amount of luggage when making their booking.

This allows the company to arrange a suitable vehicle for the journey.

Business and Private Hire

Local businesses and professionals also require reliable transport from time to time.

Alpha Lichfield Taxi provides transport for business meetings, conferences, airport journeys and other corporate travel requirements.

Private hire is also available for occasions where passengers want a vehicle for a planned period.

This can include weddings, celebrations, evening events, sporting activities and other special occasions.

Having transport arranged in advance can help people concentrate on the event itself rather than worrying about how they will get home afterwards.

Available Throughout the Day and Night

Travel does not always happen during normal daytime hours.

Flights can leave early in the morning, trains can arrive late at night, and events can finish well after public transport has stopped running.

Alpha Lichfield Taxi provides a service throughout the day and night to accommodate these different travel requirements.

Vehicles are regularly maintained and cleaned, while drivers have knowledge of Lichfield and the surrounding areas.

The company also accepts major debit and credit cards as a payment option.

Straightforward Booking

Passengers can arrange their journey through the company's online booking system or contact the team directly.

When making a booking, passengers can provide details such as their collection address, destination, travel date, pickup time, number of passengers and luggage requirements.

Customers can also request a quotation before confirming their journey.

For passengers who prefer to speak to someone directly, Alpha Lichfield Taxi can be contacted on **01543 732 515**.

Further information about the company's services and booking options can be found on its website at <https://alphalichfieldtaxi.co.uk/>.

Supporting the Local Community

Local taxi services continue to play an important role in helping people travel around Lichfield and Staffordshire.

From a short journey into the city centre to an early morning airport transfer, passengers often need transport that works around their own timetable.

Alpha Lichfield Taxi continues to support these requirements by providing local journeys, airport transfers, railway station transport, business travel, private hire and group transportation.

The company remains focused on serving passengers across Lichfield and the surrounding Staffordshire communities with a straightforward local taxi service.
