

Bentonville Dentist Highlights Comprehensive Dental Care for Local Families

Bryan & Curtis, DDS in Bentonville, Arkansas, highlights comprehensive dental care designed to help local patients maintain healthy smiles in a comfortable, patient-focused setting.

Bentonville, Arkansas Aug 26, 2026 ([Issuewire.com](https://www.issuewire.com)) - Bryan & Curtis, DDS, a Bentonville dental practice led by Dr. Rebecca Bryan and Dr. John Curtis, is highlighting its comprehensive approach to dental care for individuals and families throughout the Bentonville, Arkansas area.

The practice provides a broad range of dental services with an emphasis on personalized care, patient

education, and creating a comfortable experience from the first appointment. With more than 30 years of combined experience and advanced training, Dr. Bryan and Dr. Curtis serve patients seeking routine preventive care as well as treatment for a variety of dental concerns.

For many patients, finding a dentist in Bentonville who can provide consistent care for different stages of life can simplify the process of maintaining oral health. Bryan & Curtis, DDS offers general and family dentistry along with services addressing cosmetic, restorative, and specialized dental needs.

The practice's services include dental examinations and cleanings, dentures, Invisalign, teeth whitening, root canal therapy, TMJ treatment, sleep apnea care, and emergency dental services. Treatment recommendations are developed around each patient's individual oral health needs rather than relying on a one-size-fits-all approach.

A key part of the practice's philosophy is giving new patients time to understand their oral health and discuss their concerns. The office recommends that new patients plan for approximately 90 minutes for an initial visit. This appointment allows time for a consultation, comprehensive examination, X-rays, smile photographs, intraoral photographs, oral cancer screening, and periodontal screening when appropriate.

Following the examination, patients have an opportunity to discuss their findings and potential treatment options with the dental team. Cleaning recommendations are also based on the patient's periodontal and overall oral health needs.

This approach is intended to help patients feel informed about their dental care and comfortable asking questions before moving forward with treatment.

For Bentonville residents, access to comprehensive dental services can also make it easier to maintain continuity of care. Preventive examinations can help identify developing dental concerns, while restorative and cosmetic services can address existing problems or help patients achieve their desired smile.

The practice welcomes new patients and provides dental care in a warm, attentive setting. Patients experiencing a dental emergency can also contact the office to discuss their situation and determine the appropriate next step.

Bryan & Curtis, DDS is located at 1001 SE 28th Street, Suite #7, in Bentonville, Arkansas. Appointments can be scheduled by calling (479) 271-9900 or contacting the office by email.

For patients searching for a dentist in Bentonville, Bryan & Curtis, DDS provides a convenient local option for comprehensive dental care, personalized treatment planning, and ongoing oral health support.
