FOR A HEALTHIER, BRIGHTER, CANCER-FREE WORLD

New Delhi, Delhi Aug 27, 2026 ([Issuewire.com](https://www.issuewire.com)) - Through his practice in Shalimar Bagh, Delhi, Dr. Mohit Agarwal offers consultations for patients seeking specialized care for breast cancer and other cancers. His approach is centered on understanding each patient's diagnosis and developing a treatment strategy appropriate to their clinical condition.

Comprehensive Breast Cancer Treatment in Delhi

Breast cancer treatment can vary significantly depending on factors such as the type and stage of cancer, tumor characteristics, biomarkers, previous treatment, and the patient's overall health. Following an appropriate evaluation, treatment may involve one or more approaches.

Depending on the individual case, oncology care may include:

- Chemotherapy
- Targeted therapy
- Immunotherapy
- Hormonal therapy
- Personalized treatment planning
- Supportive and palliative care
- Follow-up and survivorship care
- Patient and family counseling

The goal is to provide patients with a clear understanding of their diagnosis and available treatment options while supporting them throughout their cancer-care journey.

Importance of Early Evaluation

Changes such as a new breast lump, changes in breast size or shape, nipple discharge, skin changes, dimpling, or persistent breast discomfort should be evaluated by an appropriate healthcare professional.

Not every breast change indicates cancer, but timely medical evaluation can help identify the cause and determine whether further diagnostic testing is necessary. Early assessment may also help eligible patients access appropriate treatment sooner.

Personalized Approach to Breast Cancer Care

Every breast cancer diagnosis is different. Treatment decisions should therefore be based on the patient's individual clinical findings rather than a one-size-fits-all approach.

Dr. Mohit Agarwal focuses on helping patients understand their diagnosis, treatment options, potential benefits and risks, and the importance of follow-up care. The practice also emphasizes communication with patients and families throughout treatment.

Breast Cancer Specialist in Delhi

Patients searching for a **Breast Cancer Specialist in Delhi** can consult Dr. Mohit Agarwal at his practice in Shalimar Bagh, New Delhi. His oncology services cover breast cancer as well as other cancers, including lung cancer.

The practice aims to combine medical expertise with compassionate communication and personalized cancer-care planning.
