

Clevedon Homeowners Offered 5% Saving on Traditional Sash Window Refurbishment

Clevedon Sash Windows launches a limited refurbishment offer to help local homeowners preserve their original timber windows and prepare their homes for colder weather.

Clevedon, England Aug 4, 2026 ([Issuewire.com](https://www.issuewire.com)) - Clevedon Sash Windows has introduced a 5% discount on qualifying [sash window refurbishment](#) work booked by 30 September 2026.

The limited offer is intended to help homeowners [repair and improve traditional timber sash windows](#) without replacing features that may still have many years of useful life remaining.

Original sash windows contribute considerably to the appearance and character of period properties. Age, weather exposure and a lack of regular maintenance can lead to sticking sashes, broken cords, loose joints, damaged timber and uncomfortable draughts.

Refurbishment allows many of these problems to be corrected while retaining existing frames and sashes wherever practical. Depending on their condition, work may include timber repairs, [replacement cords](#), pulley maintenance, adjustments, preparation and suitable draught protection.

Luke Byatt of Clevedon Sash Windows said:

“Homeowners sometimes assume that troublesome sash windows need to be completely replaced. In many cases, careful refurbishment can restore their operation, improve comfort and preserve much more of the original timber.

“This offer gives local homeowners an opportunity to have their windows inspected and understand what can realistically be repaired before deciding on more extensive work.”

[Refurbishing existing windows can be particularly valuable for period homes](#), where retaining original features helps preserve the appearance of the property. Repairing serviceable windows may also reduce unnecessary material use and disruption compared with complete replacement.

The company provides sash window repairs and restoration across Clevedon and surrounding parts of North Somerset. The 5% discount applies to qualifying refurbishment work booked by 30 September 2026 and is subject to availability. VAT will be charged at the rate legally applicable to the particular work supplied.
