New Delhi, Delhi Aug 10, 2026 (Issuewire.com) - With the event now just days away, the **5th Edition of Delhi Water Expo 2026** is set to bring together **more than 100 companies** and leading stakeholders from India's water and wastewater sector from **20–22 August 2026** at **Hall 12A, Bharat Mandapam (ITPO), Pragati Maidan, New Delhi**. The three-day B2B exhibition will bring together policymakers, government officials, urban local bodies, water utilities, industrial leaders, consultants,

technology providers, researchers, buyers, and sustainability professionals.

Hon'ble Minister of State for Jal Shakti, Dr Raj Bhushan Choudhary, will inaugurate the expo on 20 August 2026 and deliver a speech at the International Summit on Smart & Sustainable Water Systems, which takes place alongside the expo.

For industry professionals, the approaching expo offers a focused opportunity to explore **3,000+ products and technologies across 175+ categories**, compare solutions, witness live demonstrations and hold direct discussions with manufacturers, OEMs, EPC companies, consultants, distributors, system integrators and project authorities. The event is expected to welcome more than **7,500 business visitors** and attract participation from 10 water utility boards and **15+ countries**.

The exhibition will showcase solutions for **drinking water, industrial and municipal wastewater, recycling and reuse, desalination, ZLD, filtration and disinfection, pumps, valves, pipes, membranes, sludge management, laboratory and analytical systems, monitoring and process control, automation, IoT and digital water management**. Visitors will be able to evaluate technologies for operational efficiency, regulatory compliance, water conservation, cost reduction and sustainable infrastructure development.

The summit and supporting technical programme will convene **senior policymakers, government officials, urban local bodies, water utilities, industrial leaders, consultants, technology innovators and researchers** to deliberate on the future of India's water sector. Together with the exhibition, these sessions will create a high-value platform for policy dialogue, knowledge exchange, technology discovery and strategic collaboration.

Delhi Water Expo 2026 will enable businesses to identify new suppliers, evaluate practical solutions, generate business leads and build partnerships across the water value chain.

Visitor Benefits

- Meet policymakers, government officials, water utilities and senior industry decision-makers.
- Explore 3,000+ products and technologies across 175+ water and wastewater categories.
- Compare solutions and witness live product and technology demonstrations.
- Attend the International Summit, conferences and expert-led technical sessions.
- Build connections with manufacturers, OEMs, EPC companies, consultants, distributors and project authorities.
- Identify technologies that support efficiency, compliance, water reuse, sustainability and cost optimisation.
