

Dubai Top Real Estate Sales Trainer - Olga Sinenko Launches New Sales Training Programs for Agents & Agencies

Live it UP Real Estate Growth Academy rolls out an expanded curriculum covering off-plan and secondary market sales, cold calling, and closing strategy, aimed at helping Dubai-based agents and agencies convert more listings into signed deals.

Dubai, United Arab Emirates Sep 2, 2026 ([Issuewire.com](https://www.issuewire.com)) - [Dubai Top Real Estate Sales Trainer - Olga Sinenko](#) has expanded the training offering at Live it UP Real Estate Growth Academy for real estate agents and agencies operating across Dubai and the wider GCC region.

Sinenko has spent more than 11 years in the Dubai property market, building a career that began in 2014 with no local contacts and a modest starting budget. Over the course of her career she has generated more than AED 1 Billion in sales volume, trained over 2,000 agents, and consulted for more than 16 companies across the UAE and Saudi Arabia. Her Google Business Profile carries a 5.0-star rating across 190+ reviews.

For individual agents, the Academy's online real estate sales training covers both sides of the Dubai market: an Off-Plan Sales System built for agents working with international investors who buy remotely and need trust and urgency built entirely online, and a Secondary Market Sales System focused on landlord outreach and converting listings into signed agreements. These are among the top courses in Dubai for real estate agents looking to specialize in one side of the market or both, and they draw on Sinenko's own Neuro-Emotional Persuasion methodology — a framework combining Dubai market experience with behavioral sales psychology.

FOR REAL ESTATE AGENCIES, the Academy runs a corporate program bringing the same systems

directly to sales teams, alongside one-on-one SOS Strategy Sessions and an intensive 8-week mentorship program that includes private coaching and live review of agents actual client calls.

One widely cited case is Ekaterina Karanskaya, who had spent two years in Dubai real estate with only two closed deals before beginning private mentorship with Sinenko in May 2024. Within her first year of mentorship she closed AED 1,650,000 across roughly 40 deals, and later opened her own agency in Riyadh, Saudi Arabia. Her story is documented in a video interview on YouTube <https://youtu.be/zOwrApG2v5M>.

A separate case, Usman, a Gen Z agent new to both Dubai and real estate sales, closed his first off-plan deal after just two weeks of corporate sales training with the Academy — a result Sinenko points to as proof that her methodology works even for complete beginners entering an unfamiliar market. Watch Video here <https://www.youtube.com/watch?v=B8W9SykUsVs>.

Reviewers on the Academy's Google Business Profile frequently describe Sinenko's training as addressing the "freeze" agents experience on cold calls and the problem of leads going unanswered on WhatsApp, characterizing her approach as best real estate sales training built on mechanical, repeatable processes rather than generic sales motivation.
