

## E-iceblue Offers Free Spire.Agent Licenses in New Promotion

A limited-time opportunity for developers to receive a full Spire.Agent license at no additional cost with eligible Spire product purchases and renewals.

**Chengdu, Sichuan Aug 29, 2026 ([Issuewire.com](https://www.issuewire.com))** - E-iceblue Co., Ltd., a leading provider of .NET, Java, Android, and Cloud development components, today announced its limited-time “Buy Spire Products, Get Spire.Agent Licenses FREE” campaign, running from August 24 through September 24, 2026. During the campaign, customers who purchase or renew eligible Spire products through official E-iceblue channels can receive a complimentary Spire.Agent license at no additional cost.

Full License, Not a Trial

Unlike conventional free trials or feature-limited giveaways, this promotion provides a full Spire.Agent license rather than a trial or limited-feature version. New purchases receive a 2-month free license, while renewals receive 1 month. The license is automatically tier-matched to the purchased product and license level, meaning a Developer edition purchase unlocks a Developer-tier Agent license, a Site Small Business purchase maps to Site Lite, and a Site OEM purchase maps to Site Enterprise — ensuring customers get the corresponding Spire.Agent license tier without any manual claim process.

## Spire.Agent 11.8.3: An AI-Powered SDK for Document Processing

Spire.Agent 11.8.3 is E-iceblue's new AI-powered SDK for document processing. It unifies Word, Excel, PowerPoint, and PDF document operations under a single intelligent layer, enabling developers to build applications that can create, edit, convert, and analyze documents through natural language commands. With one license, developers can build cross-format, AI-powered document workflows with enterprise-grade scalability, powered by the AI models of their choice.

### Added Value at No Additional Cost

The free Spire.Agent license is matched to the purchased product and tier automatically. Eligible products include Spire.Office for .NET and individual Spire components (Doc, XLS, Presentation, PDF) for .NET. The highest-tier match — a Site OEM purchase of Spire.Office for .NET unlocking a Site Enterprise Spire.Agent.Office license — provides a free license valued at \$35,998 for the 2-month term. Even Developer-tier purchases include a free Spire.Agent license valued at \$798 for individual components and \$2,398 for Spire.Office for .NET.

### How to Get Free License

There is no separate registration or claim form. After an order is completed through any official E-iceblue channel, the Spire.Agent license is automatically delivered by email with activation instructions. Customers who do not receive the license email can contact the E-iceblue sales team directly, and it will be issued manually.

### Terms & Conditions

This offer applies only to orders purchased or renewed through official E-iceblue channels. Each qualifying order receives a Spire.Agent license matching the purchased product and tier (2 months for new purchases, 1 month for renewals), starting from the activation date. Orders placed via third-party resellers or agents are not eligible. The free license cannot be redeemed for cash or other compensation. E-iceblue reserves the right to modify, suspend, or terminate this offer at any time.

### Availability

The campaign runs from August 24, 2026, to September 24, 2026. For full campaign details, including eligibility requirements and the complete list of eligible products, visit the official campaign page: <https://www.e-iceblue.com/Campaign.html>

### About E-iceblue Co., Ltd.
