Haule Haule, an upcoming music video directed by and starring Aadit Mittal, presents an emotional story that moves beyond the conventional romantic format to explore love, trauma, mystery and transformation.

The story follows Dua, played by newcomer Tejaswini, a young woman whose life has been deeply affected by a tragedy from her past. Struggling to overcome its emotional impact, Dua finds her life taking an unexpected turn when she meets Aadit Mittal's character. Their encounter sets in motion a series of events that gradually reveal the mystery surrounding her past.

The narrative explores how Dua's experiences have shaped her personality and affected her journey, while her meeting with Aadit's character becomes a turning point in her life. Rather than focusing solely on romance, *Haule Haule* uses its characters and their individual journeys to tell a deeper emotional story.

The project features Sparrsh, Rushabh, Renu and Rujuta in key roles alongside Aadit Mittal and Tejaswini. For Tejaswini, the project marks her appearance as the female lead, portraying the emotionally layered character of Dua.

The music video brings together a fresh creative team. Payal Sharma is responsible for casting, while Rushikesh Deshmukh serves as the Director of Photography. Aadit Mittal has taken on the roles of story writer, director and male lead.

With its character-driven narrative and focus on the emotional consequences of past experiences, *Haule Haule* aims to offer audiences a music video that combines music with a complete cinematic story.
