

Hope Med Clinic Joins Metropolitan Healthcare Partners, Reopening as MHP – Park Ridge

Longstanding Dempster Street practice keeps its doctors and patients while expanding access through a nine-clinic Chicagoland network, including multilingual primary care and USCIS immigration medical exams.

Park Ridge, Illinois Sep 1, 2026 ([IssueWire.com](https://www.issuewire.com)) - Metropolitan Healthcare Partners (MHP) announced that Hope Med Clinic, a trusted primary care practice at 2604 Dempster Street, Suite 403 in Park Ridge, has joined the MHP network and is now named **MHP – Park Ridge**. Dr. David Y. Jun, MD, staff, and location continue to serve patients, now backed by the resources of nine clinics across Chicago and the northwest suburbs.

For patients, the transition means continuity of care with added convenience: the doctors they know, in the location they know, with expanded access to specialty services, multilingual care, and same-day availability across the broader MHP network. Patient records, appointments, and relationships carry forward unchanged under the new name.

MHP – Park Ridge provides internal medicine and primary care with an emphasis on preventive care, early diagnosis, and long-term health management. Services at the location include:

- Preventive care and annual physical exams
- Chronic disease management, including diabetes and hypertension
- General medical consultations
- Same-day sick visits and walk-in care
- **USCIS immigration medical exams**, performed by a licensed Civil Surgeon with nearly 25 years of experience

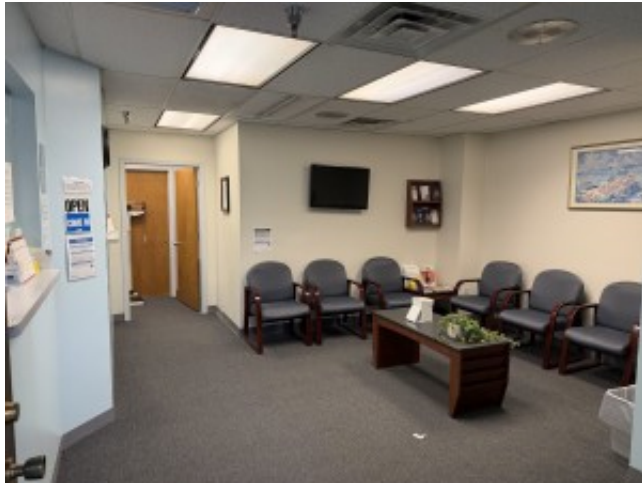

Care is delivered by an experienced clinical team, including board-certified internist **Dr. David Y. Jun, MD**, and MHP founding member **Dr. Haresh Sawlani**, supported by a team of internal-medicine nurse practitioners. The clinic serves patients in **English, Korean, Polish and Spanish** and accepts most major insurance plans.

The addition of the Park Ridge location reflects MHP's continued growth across Chicagoland. The organization now operates clinics in Park Ridge, Portage Park, North Park, Arlington Heights, Des Plaines, Jefferson Park, Edgebrook, and Addison & Central, with a ninth location opening soon in Norwood Park.

MHP – Park Ridge is located at **2604 Dempster Street, Suite 403, Park Ridge, IL 60068**. To request an appointment, patients can call **(847) 627-5206** or visit <https://mhp.healthcare/locations/mhp-park-ridge/>. Same-day sick visits and walk-ins are welcome.

About Metropolitan Healthcare Partners

Metropolitan Healthcare Partners (MHP) is a Chicagoland network of primary care and specialty clinics dedicated to compassionate, high-quality, and accessible healthcare. With nine locations across Chicago and the northwest suburbs, MHP provides internal medicine, primary care, cardiology, and podiatry services, along with preventive care, chronic disease management, and USCIS immigration medical exams. MHP is committed to building lasting patient-physician relationships and delivering care in the languages and communities it serves. Learn more at <https://mhp.healthcare>.
