

HOWVIN Outdoor Furniture Factory Expands Product Range for Global Buyers

China-based manufacturer of modern outdoor sofa, outdoor dining chair, teak outdoor dining table, sun loungers, aluminum louvered pergola, and commercial patio umbrella.

Guangzhou, Guangdong Aug 15, 2026 ([Issuewire.com](https://www.issuewire.com)) - HOWVIN Outdoor Furniture Co., Ltd., a specialized [outdoor furniture factory](#) and exporter, has announced the expansion of its manufacturing capabilities and product portfolio for residential, hospitality, and commercial outdoor spaces. The company now offers a complete range of outdoor living products, including [modern outdoor sofa](#) sets, outdoor dining chair collections, [teak outdoor dining table](#) options, sun loungers, [aluminum louvered pergola](#) systems, and commercial patio umbrella products.

Company Development and Manufacturing Growth

HOWVIN Outdoor Furniture Co., Ltd. was established in GuangZhou, GuangDong, a region widely recognized as one of China's core outdoor furniture production bases. In its early years, the company focused on producing basic outdoor seating and dining products for domestic and regional buyers. As demand for weather-resistant outdoor furniture grew, HOWVIN gradually expanded its workshops, upgraded production equipment, and developed a more complete in-house manufacturing system.

Today, HOWVIN operates as an integrated **outdoor furniture factory**, with dedicated sections for metal fabrication, aluminum welding, rope weaving, powder coating, cushion sewing, assembly, quality inspection, and packaging. This structure allows the company to control product quality from raw material sourcing to finished goods, and to support both large-volume container orders and customized OEM/ODM projects.

Core Product Lines

HOWVIN's product range covers seating, dining, lounging, and shading categories for patios, gardens, poolsides, hotels, resorts, and commercial outdoor areas. Core product lines include:

- **Modern outdoor sofa** collections with powder-coated aluminum frames, UV-resistant rope weaving, and quick-dry foam cushions
- **Outdoor dining chair** products in aluminum, wicker, and wood-look finishes for residential and contract use
- **Teak outdoor dining table** options with natural wood finishes or teak-look alternatives for premium outdoor dining settings
- **Sun loungers** for poolside, garden, and resort environments, available with adjustable backs, wheels, and optional canopies
- **Aluminum louvered pergola** systems with adjustable blades for flexible shade, ventilation, and weather protection
- **Commercial patio umbrella** products designed for restaurants, cafes, hotels, and event spaces

Manufacturing Scale and Quality Control

HOWVIN operates a large-scale production base with multiple production lines and a skilled workforce. As a full-service **outdoor furniture factory**, the company integrates welding, weaving, powder coating, and assembly processes under one roof, which helps reduce lead times and maintain consistent quality across product categories. A dedicated quality control team inspects raw materials, semi-finished components, and finished products before shipment.

The company's production capacity supports both standard product lines and fully customized outdoor furniture collections. By combining in-house manufacturing with flexible design support, HOWVIN helps importers, distributors, and hospitality buyers develop differentiated outdoor product ranges for their markets.

Global Market Focus

HOWVIN serves customers across Europe, North America, the Middle East, and Australia. The company provides OEM and ODM services for outdoor furniture brands, importers, and project buyers, offering customization in dimensions, frame colors, weaving patterns, cushion fabrics, and packaging.

“As a full-service **outdoor furniture factory**, we support our clients from initial design and prototyping

through to mass production and final packaging,” said a spokesperson for HOWVIN Outdoor Furniture Co., Ltd. “Our goal is to provide durable, design-driven outdoor furniture that meets the requirements of both residential and commercial projects.”
