

Ministry of Health Honours Wassan Dental for Excellence

Masqat, Oman Aug 17, 2026 ([Issuewire.com](https://www.issuewire.com)) - Wassan Specialty Dental Centre, Al Khuwair, has been honoured by the Ministry of Health, represented by the Directorate General of Private Health Establishments (DGPHE), for its outstanding efforts in developing the quality of health services in the private health sector.

During a visit to the Centre, officials from the Directorate General presented Wassan with a commemorative trophy and a Certificate of Appreciation, recognising the Centre's commitment to implementing the infection control requirements and patient safety standards approved by the Ministry of Health, and its continuous efforts to enhance the quality of its services. The recognition was presented under the signatures of Dr. Muhanna bin Nasser Al-Muslihi, Director General of Private Health Establishments, and Dr. Saeed bin Mohammed Al-Mughairi, Director of the Compliance Monitoring Department.

Dr. Muhanna bin Nasser Al-Muslihi, Director General of Private Health Establishments, commended the Centre, noting the consistently positive feedback the Directorate has received from patients about their experience at Wassan. He praised the Centre's efforts to raise the standard of dental care within the private sector, and expressed his appreciation for Wassan's commitment to employing and training Omani nationals, supporting the development of a skilled national workforce in the dental field.

Dr. Muhanna said: "The feedback we receive from patients about Wassan Specialty Dental Centre has been consistently positive, and that speaks louder than any inspection report. The Centre's efforts to raise the standard of dental care in the private sector, and its genuine investment in employing and training Omani talent, reflect exactly the direction we want the private health sector to take."

Dr. Saeed bin Mohammed Al-Mughairi, Director of the Compliance Monitoring Department, said: "Our compliance visits are designed to raise standards, not simply to inspect. It is encouraging to see establishments such as Wassan Specialty Dental Centre treating infection control and patient safety requirements as an integral part of daily practice."

Dr. Siju George, Specialist Orthodontist and Founder of Wassan Specialty Dental Centre, said: "This recognition from the Ministry of Health is a moment of great pride for the entire Wassan family. Infection control and patient safety are not checkboxes for us – they are the foundation of every treatment we provide. We are equally proud of our Omani team members, whose growth and training are central to our vision. We thank the Directorate General of Private Health Establishments for this encouragement, and we dedicate this honour to our team and to the patients who place their trust in us every day."

Wassan Specialty Dental Centre extends its sincere gratitude to the Ministry of Health and the Directorate General of Private Health Establishments, and reaffirms its commitment to the highest standards of clinical quality, infection control, patient safety, and the continued development of Omani talent in dentistry.
