

MoveGuard Growth Gives Large-Breed Puppies a Joint Formula Built for Their Size

Every active ingredient is listed at its individual milligram dose, not folded into a blend, so pet parents can see exactly what their growing puppy is getting.

Sheridan, Wyoming Aug 6, 2026 ([Issuewire.com](https://www.issuewire.com)) - Large-breed and giant-breed puppies can gain two to three pounds a week during their growth phase, putting far more strain on developing joints than smaller breeds ever experience. Pawganix built MoveGuard Growth specifically for that window, a daily soft chew formulated for puppies age 8 to 30 months rather than a general-purpose supplement resized

for a smaller dog.

Each chew delivers 400 mg Glucosamine HCl, 300 mg Chondroitin Sulfate, 250 mg MSM, 150 mg New Zealand Green-Lipped Mussel, 50 mg Antarctic Krill Oil, and 2 mg Hyaluronic Acid, along with Manganese and Vitamins C and E. Pawganix lists every active ingredient at its individual milligram dose on the packaging, a practice it applies across its full product line rather than combining actives into a single undisclosed blend total.

The chew is dosed by body weight rather than a flat serving size: two chews daily for puppies between 50 and 80 pounds, three chews daily for puppies above 80 pounds. It ships in a 90-count bag, is chicken-liver flavored, and contains shellfish from its New Zealand Green-Lipped Mussel and Antarctic Krill Oil content.

"A puppy gaining two or three pounds in a single week needs joint support dosed for that pace, not a supplement designed for a dog that's already finished growing," said Kingsley, co-founder of Pawganix. "That's the gap MoveGuard Growth was built to close."

"Cartilage development during a large-breed puppy's growth window sets the foundation for how that dog moves for the rest of its life," said Dr. Gaby Thompson, DVM, who reviewed the MoveGuard Growth formula for Pawganix. "Supporting that window with the right ingredients, at doses that are actually printed on the label, is something I look for before recommending a product to a client."

MoveGuard Growth is available now at pawganix.com and on Amazon, priced at \$49.99 for a one-time purchase or \$39.99 with a Subscribe & Save subscription, and comes with Pawganix's 60-day money-back guarantee.

About Pawganix

Pawganix is a founder-led dog supplement company built around full ingredient-dose transparency and veterinary-reviewed formulation. Every Pawganix product, including YeastGuard, MoveGuard Growth, and MoveGuard Adult, is manufactured in a GMP-certified, NSF-registered US facility and backed by a 60-day money-back guarantee.
