

New Book by Tharapita Tam Explores Consciousness, Existence and the Origin of the Universe

A short philosophical book exploring the nature of reality, history of the universe, oneness, being, consciousness, love, suffering and the meaning of life.

THARAPITA TAM

A BRIEF HISTORY OF
THE UNIVERSE

Amsterdam, Noord-Holland Aug 15, 2026 ([IssueWire.com](https://www.IssueWire.com)) - "A Brief History of the Universe" – An Exploration of Fundamental Questions

A newly published work by **Tharapita Tam** offers an original inquiry into consciousness, existence, being, the origin of the universe and suffering.

Short enough to be read in a single sitting, the book turns to questions that have occupied humanity for centuries and that science has not yet fully answered:

What is the nature of reality?

Why does the universe exist?

Who am I?

What is life?

The text is not drawn from existing AI outputs or assembled from previously published religious, spiritual or scientific sources. The author arrived at this perspective through years of meditation, direct inner investigation of consciousness and careful analysis.

"A Brief History of the Universe" presents a thought-provoking examination of these questions.

The book is available here:

<https://www.amazon.com/Brief-History-Universe-Tharapita-Tam/dp/9916440654>

Tharapita Tam writes under a chosen name and is also the author of the allegorical satire "[A Tale of a Forest Fox Who Wanted to Get Rich](#)", published by Sinisukk in 2026 and illustrated by Kärt Merilain.

Both works form part of the larger unpublished literary creation "**Adele in a Timeless Moment**".

Through symbolic storytelling, Tam looks at human desire, collective illusion, greed, consciousness and the deeper patterns that shape life. What may seem simple on the surface opens into a sharper and more mysterious investigation of existence.

Readers drawn to these fundamental questions are invited to explore the book.
