

REVGEAR Launches the S7 Sparring Gloves: An Elite Sparring Glove Designed Specifically for Martial Artists

Los Angeles, California Aug 4, 2026 ([Issuewire.com](https://www.issuewire.com)) - **REVGEAR**, one of the world's longest-standing martial arts brands, proudly announces the launch of the new REVGEAR S7 Sparring Gloves—a premium sparring glove developed from the ground up for martial artists.

After more than five years of development and over two years of testing inside gyms with professional athletes, coaches, and everyday martial artists, the S7 was built to answer a question that guided every stage of its design:

What would an elite sparring glove look like if it were designed specifically for martial artists instead of boxers?

While many of today's premium sparring gloves trace their heritage to traditional boxing, REVGEAR set out to create a glove for the modern striker—someone who trains across boxing, Muay Thai, kickboxing, MMA, and other combat sports. The result is a glove engineered to deliver exceptional protection, comfort, balance, and performance across the full spectrum of martial arts striking.

Developed with input from world champions, respected coaches, and experienced martial artists, the S7 combines premium materials, advanced multi-layer impact protection, and an ergonomic fit that feels natural whether you're sparring, hitting pads, or training for competition.

"The S7 wasn't created to copy what already existed," said Alex Wright, Brand Director at REVGEAR, who led the development of the project. "We wanted to build the sparring glove that martial artists have

been waiting for. Most premium gloves are designed primarily with boxers in mind. We approached the challenge from a martial artist's perspective—someone who boxes, kicks, clinches, and trains across multiple disciplines. Every decision was made to create the highest-performing sparring glove possible for that athlete."

The project represents one of the most extensive product development efforts in REVGEAR's nearly 30-year history. Multiple generations of prototypes were refined through thousands of rounds of sparring and countless hours of feedback before the final design was approved.

"The S7 reflects exactly what REVGEAR stands for," said Paul Reavlin, CEO of REVGEAR. "We've spent nearly three decades building equipment for martial artists, and this glove represents everything we've learned along the way. We didn't want to build another boxing glove—we wanted to build the premier sparring glove for martial artists."

Key Features

- Purpose-built for martial arts striking
- Designed for Boxing, Muay Thai, Kickboxing, MMA, and mixed striking disciplines
- Premium full-grain leather construction
- Advanced multi-layer impact protection
- Ergonomic hand position for superior comfort during long training sessions
- Exceptional wrist support and balanced weight distribution
- Available in both Hook & Loop and traditional Lace-Up models

The REVGEAR S7 Sparring Gloves are available now through REVGEAR.
