

SoRichiam Media Launches Master Mind Drive Along Success Audio Series

SoRichiam Media and InsPRd_AudioBks introduce a new drive-along audio CD series based on classic personal development literature for daily commuters and long-distance drivers.

Rochester, New York Aug 11, 2026 (IssueWire.com) - SoRichiam Media has just launched a new drive-along audio CD series with their sister company, InsPRd_AudioBks, for people who commute to work by car or drive long distances and want to use their travel time productively to self-program themselves for greater success. The audio CDs are based on personal self-improvement classics from authors like James Allen and Wallace D. Wattles.

InsPRd_AudioBks provides full-length classic personal development audiobooks online. It takes at least twenty-one days to form a new habit.

InsPRd_AudioBks discovered that those who have committed to change want to immediately immerse themselves in their new and better identity continuously. The InsPRd_AudioBks Drive-Along Audio CD series helps them do that.

The Science of Getting Rich by Wallace D. Wattles is their most popular personal development offering. InsPRd_AudioBks recommends layering.

People who watch InsPRd_AudioBks online often get The Science of Getting Rich Book which now includes a Workbook. Many choose to expedite their success by also creating mastermind groups composed of three or more other pro-active personal development friends, family, or associates.

Mastermind groups are people of like mind who also want to achieve success ethically with whom each member can safely discuss plans or ideas out loud. They read the book and play the audiobook regularly. They come together to discuss their goals and success.

Major successful people in history have formed such groups knowingly or unknowingly such as Andrew Carnegie and John D. Rockefeller, Thomas Edison and George Eastman, Steven Spielberg, George Lucas, and Francis Ford Coppola. Susan B. Anthony and Frederick Douglass were also known to have formed a mastermind group during the suffrage movement for women and minorities. Many more modern collaborators still use this method today.

Each member holds the other(s) accountable according to the level he or she has committed to achieve. They must meet harmoniously. Harsh criticism is not acceptable or allowed for this to work. It must be constructive.

Once readers have listened to the audiobook and completed the book and workbook, InsPRd_AudioBks driving audio CD series is like frosting on a cake. The Science of Getting Rich driving audio is a 2 part CD series.

How it works: Select the personal development audiobook content you desire (health, prosperity, wisdom, success etc.). Listen to the audiobook online. Get the companion drive along audio CD. Play that particular audio CD daily for at least thirty days.

Write down new ideas, plans and strategies that arise. They will.

Be patient. Be consistent. It works. Repetition is key.
