

Startup Paper Cup Factory Custom Printed Cup Fans Purchasing Case & Guide

Nanning, Guangxi Aug 14, 2026 ([Issuewire.com](https://www.issuewire.com)) - Newly established paper cup factories worldwide usually adopt a lightweight production model, only equipped with cup forming machines without printing or slitting equipment. For these startup manufacturers, [custom printed and die-cut paper cup fan](#) are the most ideal low-risk, cost-effective solution, eliminating expensive equipment investment and enabling fast launch of branded custom paper cups.

New cup factories commonly face core challenges including machine compatibility uncertainty, custom printing standards confusion, strict import food safety compliance and flexible small-trial order demands. As a professional supplier dedicated to global startup paper cup factories, we provide one-stop customized cup fan solutions to solve all startup production pain points.

We supply standard [PE coated printed paper cup fan and PLA coated printed paper cup fans](#) covering 4oz to 22oz, suitable for hot drink, cold drink, coffee and ice cream cups. For mainstream [8oz-12oz hot coffee cups](#), 230-280gsm [single PE coated paper cup fan](#) are the most stable and machine-friendly option. Adopting food-grade flexographic printing that meets FDA and EU 10/2011 food contact standards, our high-definition multi-color printing strictly reserves sealing areas to avoid cup leakage and cracking.

To support new factory commissioning, we provide pre-production cup fan samples for machine testing and offer flexible startup-friendly MOQ for small trial orders. All standard-size die-cut fans fit global mainstream cup forming machines, with free parameter debugging guidance provided. We offer

complete customs clearance documents and moisture-proof export packaging to ensure safe long-distance sea shipment.

With reliable quality, professional customization and full-process technical support, our custom printed cup fans help new paper cup factories reduce production costs, lower trial risks and quickly seize local disposable tableware market.
