

# Stevendev Marketing Launches Custom AI Voice Agents That Answer Calls, Book Appointments & Qualify Leads

Custom AI voice agents and chatbots answer calls, qualify leads, and schedule appointments around the clock.

The advertisement features a dark blue background with a white robot character on a laptop screen. The robot has a speech bubble that says "How can I help you?". To the right of the robot is a white card that says "LEAD CAPTURED!" with a checkmark. The text "AI SOLUTIONS THAT DRIVE BUSINESS GROWTH" is prominently displayed in large, bold, white and blue letters. Below this, it says "Custom AI Chatbots, Voice Agents & Automation to Generate Leads, Save Time & Increase Sales". There are four icons representing different services: AI Chatbots (24/7 Customer Engagement), Voice Agents (Smarter Calls, Better Experiences), Automation (Save Time & Boost Efficiency), and Lead Generation (Qualify Leads & Increase Conversions). At the bottom, there is a blue banner with the text "WORK SMARTER. AUTOMATE MORE. GROW FASTER." and a shield icon with the text "BUILT AROUND YOUR BUSINESS. FOCUSED ON RESULTS."

**Lubbock, Texas Aug 4, 2026** ([Issuewire.com](https://www.issuewire.com)) - Every missed phone call can mean a lost customer. Every unanswered website inquiry can send a prospect to a competitor. As businesses face increasing pressure to provide instant service around the clock, **Stevendev Marketing** has launched a new generation of custom AI Voice Agents and AI Chatbots designed to help companies respond to every opportunity—24 hours a day, 7 days a week.

The company's newly launched website, [www.stevendevmarketing.com](https://www.stevendevmarketing.com), introduces AI-powered business automation solutions that answer inbound calls, engage website visitors, qualify leads, schedule appointments, and provide customer support without requiring additional staff.

Unlike generic AI tools, Stevendev Marketing develops custom AI agents trained on each client's business, services, policies, and workflows. The result is an AI assistant capable of handling real customer conversations naturally while integrating with the software businesses already use.

"Our mission is simple," said **Steven Devenport**, Founder of Stevendev Marketing. "Businesses shouldn't lose customers because they can't answer the phone after hours or respond to every inquiry immediately. AI gives companies the ability to provide fast, professional service around the clock while allowing employees to focus on higher-value work."

The company's AI solutions include:

- AI Voice Agents for inbound and outbound calls
- AI Chatbot Development
- AI Appointment Booking
- AI Customer Support Agents
- AI Lead Qualification
- AI Receptionist Services
- AI Sales Automation
- CRM Integrations
- AI Business Automation Consulting

Stevendev Marketing's AI agents integrate with widely used platforms including Google Calendar, Salesforce, HubSpot, Microsoft Dynamics, Zendesk, Zoho, Intercom, and other business applications, enabling organizations to automate routine tasks while improving customer experiences.

Industry analysts continue to point to conversational AI as one of the fastest-growing areas of business technology, as companies seek practical ways to improve responsiveness, reduce operational costs, and support customers outside of traditional business hours. Stevendev Marketing is focused on helping organizations implement these capabilities with customized solutions tailored to their operations.

The new website also features industry-specific demonstrations for businesses in home services, healthcare, legal, real estate, recruiting, and other sectors, making it easier for business owners to see how AI can fit their unique needs.

Businesses interested in learning how AI voice agents and intelligent automation can improve customer engagement and operational efficiency are invited to visit [Stevendev Marketing Scheduler](#) to schedule a personalized demonstration.
