Stoke on Trent, Staffordshire Aug 22, 2026 ([Issuewire.com](https://www.issuewire.com)) - Zaamfarm, a UK-based supplier of organic green tea and traditional Kabul chai, has introduced a new shipping and wholesale pricing structure aimed at making its products more accessible to both individual customers and independent shopkeepers across the country.

Under the new policy, all UK orders now qualify for a flat shipping rate of £5.99, with free delivery automatically applied to any order of £50 or more. The change is designed to reduce the cost barrier for customers who want to stock up on Zaamfarm's range of organic teas, including its signature Kabul Chai, Cardamom Chai, and sugar-free green tea varieties.

Alongside the consumer-facing shipping update, [Zaamfarm](https://www.zaamfarm.com) is also expanding its bulk ordering programme for shopkeepers and independent retailers. Shop owners who order in larger quantities can now access special wholesale rates, a move the company says reflects growing demand from small retailers looking to bring authentic, organically sourced tea to their own customers.

"Tea is one of the most widely consumed drinks in the world, and we wanted to make sure both

individual tea drinkers and the shopkeepers who serve their communities can access our products affordably," said a Zaamfarm spokesperson. "Whether someone is buying a single bag for their kitchen or a retailer is stocking their shelves, this update makes it easier to bring Zaamfarm into more homes."

Zaamfarm's products are sourced from certified organic gardens and hand-picked before being freshly packaged to preserve flavour. The company's core range includes:

- Organic Green Tea (500g) : Caffeine-free, rich in antioxidants
- Kabul Chai (500g) traditional metabolism-boosting blend
- Cardamom Kabul Chai (200g) Sugar-free with zero calories

The company says the new shipping and bulk pricing structure is now live across its online store, with plans to continue expanding its retail partnerships throughout the UK in the coming months.
