

Amanda D'Souza Unveils Personal Portfolio Showcasing Decade of Luxury Interior Innovation

Founder of Euphoria Interiors Amanda D'Souza launches her official digital portfolio, highlighting bespoke villa transformations, commercial F&B concepts, and a zero-template design philosophy in Dubai.

Dubai, United Arab Emirates Sep 23, 2026 ([IssueWire.com](https://www.issuewire.com)) - Renowned interior designer and creative director Amanda D'Souza has officially launched her refreshed digital portfolio, offering an in-depth look into a decade of bespoke residential and commercial transformations across the UAE.

As the founder and principal designer of **Euphoria Interiors**—established in 2016—Amanda D'Souza has built a reputation for designing spaces tailored strictly to the character, lifestyle, and operational needs of her clients. Born, raised, and educated in Dubai, D'Souza combines a deep understanding of local architectural nuances with rigorous engineering standards across master communities like Palm Jumeirah, Dubai Hills Estate, and Mirdif.

A Human-Centric Design Philosophy

D'Souza's work is guided by a firm principle: no design templates are ever recycled. Every residential layout, custom joinery detail, and material selection is developed from scratch.

"Design cannot begin until I understand who is going to live or work inside the space," says **Amanda D'Souza**. "True luxury isn't just about expensive finishes—it's about how naturally a room supports daily life while reflecting the personality of the owner."

Visitors can explore her design approach and career journey directly on her [official homepage](#).

Showcasing Diverse Architectural Typologies

The newly updated platform features a wide range of completed projects spanning luxury villas, urban apartments, and standout commercial F&B spaces:

- **Luxury Residential Estates:** Full turnkey renovations and interior architecture for high-end properties in gated Dubai communities, emphasizing spatial flow, natural light, and climate-resilient materials.
- **Commercial & F&B Concepts:** Dynamic commercial transformations, including the retro-pop outdoor dining venue *UFO Burger* in Mirdif Way Park, which balances striking visual identity with strict municipal compliance.
