Kampala, Central Sep 15, 2026 (Issuewire.com) - Edifire Ministries Publishing House is pleased to announce the official release of "**Healing Is For Today: Unleashing Dunamis Healing Power**" (The Dunamis Healing Series, Book 1 of 4), authored by theologian, architect and apostolic minister Apostle

Edward Ssewanyana. Following its international launch, the book has surged to the #1 Best Seller position on Amazon in both the Christian Prayer Books and Pneumatology categories.

"Healing Is For Today" provides an expository scriptural exploration of divine healing, demonstrating that supernatural restoration and physical wholeness remain an active covenant reality for contemporary believers. Grounded in the finished work of Jesus Christ on the Cross, the book unpacks the biblical meaning of "dunamis" (God's miracle-working power) and equips Christians with practical faith principles to pray for the sick and experience supernatural breakthroughs in their everyday lives.

"Divine healing is not an obsolete relic of church history or a sporadic luxury," states Apostle Edward Ssewanyana. "Scripture confirms that by the stripes of Jesus Christ, healing was purchased in full. This book was written to remove theological confusion, dismantle religious traditions that hinder faith, and ignite bold, scripture-based apostolic authority in the hearts of believers across the globe."
