

Back to School, Big Ideas: The Visionary and The Yesterday Cipher Headline Dex System Publishing's September

As classrooms fill back up, two titles about memory, progress, and the future of human potential take center stage.

Alliedonia, Ohio Sep 2, 2026 ([IssueWire.com](https://www.issuewire.com)) - September's return to routine brings a natural moment to reflect on how far ideas can carry us — and Dex System Publishing is marking it with a pairing of *The Visionary* and *The Yesterday Cipher*.

The Visionary, by Preston Ashcroft, explores the ideas and influence associated with futurist Ray Kurzweil and the broader conversation around where humanity is headed as technology accelerates. It's a title for readers drawn to big-picture thinking about innovation, longevity, and what the future of humanity might look like in the decades ahead.

The Yesterday Cipher, from author Morgan Burns, turns inward, following characters for whom tomorrow itself becomes both a resource and a battleground. As the title suggests, the novel is built around what we keep, what we lose, and what it costs to hold on to the days that matter most. It's a fitting companion to *The Visionary*'s forward-looking lens — one book asks where we're going, the other asks what we're taking with us.

Dex System Publishing continues to expand its catalog across genres, pairing speculative nonfiction-adjacent titles like *The Visionary* with character-driven fiction like *The Yesterday Cipher* as part of its ongoing seasonal release strategy. Both titles are available now through the retailers listed below.

Featured Titles

- **Portals** — Chester Craig's interdimensional thriller.
