

Beyond Code: Dex System Publishing Unveils Speculative Slate Examining Artificial Intelligence and Digital Consciousness

New Multi-Book Release Explores the "Ghost in the Machine," Algorithmic Morality, and the Frontier Between Human Intent and Synthetic Logic

Cleveland, Aberdeen Sep 2, 2026 ([IssueWire.com](https://www.issuewire.com)) - Dex System Publishing today announced a thematic press release slate centered on artificial intelligence, moral philosophy, and synthetic consciousness. Exploring the threshold between human intent and machine execution, this curated collection pairs two standing anchor titles with three speculative works examining the past, future, and evolving nature of automated systems.

Featured Titles in This Release

- **E+Drive: The Good Ghost (A Tale of Choice)** by *Ronald Bartholomew* Anchor Title. A cornerstone narrative exploring agency, decision-making, and the ethical boundaries of ghost-in-the-machine architecture. <https://books.apple.com/us/audiobook/e-drive-the-good-ghost-a-tale-of-choice/id6791204604>
- **Portals** by *Chester Craig* Anchor Title. A speculative voyage through threshold dimensions, digital conduits, and interconnected virtual realms. <https://www.amazon.com/Portals-Chester-Craig/dp/B0GZ55G47K/>

- **Dragon Beast: Magic of the Machine** by *Orion Graves* An investigation into the intersection of high technology, mythical machine mechanics, and cybernetic emergence.

Examining the "Ghost in the Machine"

This release highlights the core friction between algorithmic autonomy and human wisdom. By pairing narratives of raw mechanical power with philosophical queries on warfare, personal choice, and latent human potential, the Dex System Publishing lineup offers readers a compelling entry point into the moral dilemmas posed by rapidly advancing artificial intelligence systems.
