

Bracket Maker Expands Free Tournament Platform With Leagues, Swiss Play and Mobile Apps

Organizers can create and manage six competition formats online, track results and standings, and run events from iOS and Android devices.

The screenshot shows the Bracket Maker website interface. At the top, there is a navigation bar with the "Brackets" logo, a language selector set to "EN", and dropdown menus for "Tournaments" and "Leagues". A "Player" profile icon is on the right. The main content area has a dark blue background. On the left, a section titled "Free Online Bracket Maker" describes the platform's capabilities: creating custom brackets, adding teams/players, choosing formats, tracking results, and sharing brackets. It lists six features with green checkmarks: Multiple bracket formats, Automatic bracket generation, Easy team & player setup, Live online brackets, and Print & export ready. On the right, a light blue box titled "Choose tournament type:" lists six options with icons and descriptions: Round Robin, Single Elimination, Double Elimination, 3 Game Guarantee, Swiss System, and League (Season Format). A "Learn More" link is at the bottom.

Free Online Bracket Maker

Create and run a custom tournament bracket online. Add teams or players, choose a format, seed or randomize participants, track results, and share your bracket. Free to start. No spreadsheet or manual bracket setup required.

- ✓ **Multiple bracket formats**
Create single elimination, double elimination, round robin, Swiss and league brackets in seconds.
- ✓ **Automatic bracket generation**
Seeded, random or manual pairings with instant standings updates.
- ✓ **Easy team & player setup**
Add participants in seconds and edit them anytime.
- ✓ **Live online brackets**
Share a link and access brackets from any device.
- ✓ **Print & export ready**
Download professional PDF brackets or print them instantly.

Choose tournament type:

- Round Robin**
Everyone plays with everyone, and the winners is determined by scores.
- Single Elimination**
Participants play one game each, and losers leave the tournament.
- Double Elimination**
Something similar, but there's a chance to get through to the finals.
- 3 Game Guarantee**
Every teams plays at least 3 games before leaving the tournament.
- Swiss System**
Players compete in several rounds, each time facing opponents with a similar win-loss record, and final rankings are based on total points.
- League (Season Format)**
Run a full season with recurring matches, automatic standings and team tracking across rounds.

[Learn More](#)

New York City, New York Sep 11, 2026 ([Issuewire.com](https://www.issuewire.com)) - [Bracket Maker](#) has expanded its browser-based tournament management platform with a broader range of competition formats, league tools and companion mobile apps for organizers managing sports, games and community events.

Available at <https://bracketmaker.app/>, the platform now supports [single elimination](#), [double elimination](#), [round robin](#), [Swiss system](#), three-game guarantee and league-season competitions. Organizers can add teams or players, create schedules, record scores, track standings and share tournament results from one place.

The expanded format selection is designed to serve events that cannot be managed effectively with a simple knockout bracket. Round robin gives every participant multiple matches, Swiss pairing matches participants with similar records, three-game guarantee ensures a minimum amount of play, and league mode supports competitions that run across a season.

Bracket Maker is intended for tournament directors, sports clubs, schools, workplaces, gaming

communities and informal groups. It can be used for pickleball, padel, basketball, football, cricket, baseball, badminton, tennis, chess, esports and other competitive activities.

Organizers can set up an event through the web platform and use mobile apps to manage competitions away from a desk. The Bracket Maker mobile ecosystem includes Bracket Maker alongside dedicated Padel Americano and Pickleball Round Robin apps, with availability for iOS and Android.

Recent additions have extended the platform beyond traditional bracket generation. Double-elimination support gives participants a second route through an event after a loss. Swiss-system tournaments provide multiple rounds with record-based pairings, while league scheduling and automatic standings support recurring matches over longer periods. A three-game-guarantee option helps organizers plan events in which participants receive a predictable minimum number of games.

The platform is free to start and is built to replace spreadsheets, paper brackets and manual standings calculations. Tournament pages can be shared with participants and spectators so they can follow schedules, results and rankings as an event progresses.

More information about Bracket Maker and its supported competition formats is available at <https://bracketmaker.app/>. Product updates are published at <https://bracketmaker.app/changelog/>.

About Bracket Maker

Bracket Maker is tournament and league management software for sports, games and competitive events. It provides browser-based tools and mobile apps for creating schedules, running multiple tournament formats, recording results, calculating standings and sharing competitions with participants and spectators.
