Delhi, India Sep 14, 2026 ([Issuewire.com](https://www.issuewire.com)) - A chain that no longer sits right, leftover wedding bangles, a silver thali that has lived in a steel almirah for twenty years: that is the metal Faridabad families still keep more out of habit than use. Cash For Gold Pvt. Ltd., which works through **goldbuyers.in**, is putting its gold and silver buying service on record today for Faridabad and for the other Indian cities where it already keeps a desk.

People who type [cash for gold faridabad](#) into a search bar are rarely looking for a lecture on hallmarks. They want a counter that will weigh the piece in front of them, say the purity without dropping its voice, and pay the same day. The company has been doing that work since 2012, first from Delhi and later from shops inside Faridabad.

Three of those shops are in the city now.

Store 1 - Booth No. 143, Sector 15 Main Market, pin 121007.

Store 2 - Shop No. 73, HUDA Market, Sector 29, pin 121008.

Store 3 - Shop No. 54, ground floor, next to the HUDA market gate, Sector 17, pin 121002.

All three open 10:30 a.m. to 7:30 p.m., including Sunday.

The Faridabad line is 9911800034.

Head office is A-91 A, Lajpat Nagar II, Veer Savarkar Marg, New Delhi 110024.

Walk-ins who expect a pawn-shop huddle usually notice two things first. The scale is a lab unit, not a kitchen balance, and the reading is taken to three decimal places. Purity is checked more than once on machines, not by a quick touchstone swipe behind the glass. The offer follows that day's market print. If the seller takes the number, the money can leave as cash, UPI, NEFT or IMPS before they are back on the market road.

That is the habit the firm wants tied to [gold buyers in faridabad](#). The same counters take silver jewellery, silver coins, silver ginni and old household silver. Broken rings, single earrings, melted bits and named coins are taken; the metal is priced, not the design. Diamonds set in gold are assessed on their own instead of being waved off as "stone weight."

Anyone who wants to [sell gold in faridabad](#) should bring a government photo ID and address proof. Aadhaar, passport or a voter card will do. An old purchase bill helps when it still exists. Plenty of families no longer have the 1998 receipt; staff walk the seller through the file rather than sending them home.

Faridabad is not a small jewellery town. NIT, Ballabhgarh, Greater Faridabad and the older sectors all hold metal bought for a ceremony and then put away. When a school fee, a hospital bill or a gap in the shop's cash shows up, that metal is the first asset people think of. The company is betting that [jewelry buyers in faridabad](#) who keep regular hours, stay on the map, and do not clip the last two digits off the scale will keep getting those visits.

The first step has moved to the phone. Someone in Sector 16 or Greenfields now looks up [gold buyers near me](#), checks the pin, and only then takes the box out of the cupboard. The Faridabad pages on [goldbuyers.in](#) are built for that minute: addresses, hours, and a plain list of what the desk will buy.

The same name runs in Delhi, Gurugram, Noida, Mumbai, Ludhiana, Jalandhar and Jaipur. Management calls the network company-run, not a franchise grid, and it has already gone to court over the marks “Cash For Gold” and “Gold Buyers.” For a seller the useful point is smaller: the Faridabad rate and the Delhi rate are built the same way.

Cash for gold pvt. ltd. in faridabad is a local counter tied to that national buying desk. Gold and silver both move across it. The company is not asking households to empty the locker. It is saying that if a piece is already unused, turning it into cash does not have to be a whispered errand down a side lane.

Branch lists, the Faridabad process and the three shop addresses are at <https://goldbuyers.in/cash-for-gold-in-faridabad/>. Walk-ins are taken during working hours.
