

Evo Lawn & Landscape Announces Weekly Lawn Mowing Service in Libertyville, IL

Libertyville homeowners can enroll in weekly lawn mowing maintenance from April through November, with service starting at \$200 per month for qualifying properties.

Libertyville, Illinois Sep 16, 2026 ([Issuewire.com](https://www.issuewire.com)) - Evo Lawn & Landscape has announced its 2027 weekly lawn mowing service for qualifying residential properties in Libertyville, Illinois. The recurring service is scheduled from April through November and is designed for homeowners who want consistent lawn maintenance throughout the growing season.

Weekly lawn mowing starts at \$200 per month for qualifying properties. Evo Lawn & Landscape uses a flat monthly pricing structure, which means the monthly rate does not increase simply because a calendar month contains five scheduled mowing weeks instead of four.

The recurring service includes mowing maintained turf areas, string trimming around applicable lawn edges and obstacles, and blowing grass clippings from serviced hard surfaces. Final pricing is determined after reviewing the property and may vary based on lawn size, layout, access, terrain, trimming requirements, and overall service needs.

Each property is reviewed before recurring service begins. Evo Lawn & Landscape evaluates factors such as equipment access, gates, slopes, obstacles, maintained lawn area, and other conditions that may affect the time and equipment required to service the property properly.

Properties accepted into the program are placed on a recurring weekly route for the mowing season. This approach allows homeowners to maintain a predictable service schedule rather than requesting individual mowing visits after grass has already become overgrown.

“Weekly lawn care works best when the property stays on a consistent schedule,” said Gerry of Evo Lawn & Landscape. “The goal is to establish the service scope and pricing before the season begins so homeowners know what to expect throughout the mowing season.”

The 2027 mowing program is being announced ahead of the spring season so Libertyville homeowners can review service requirements and request a property evaluation before recurring routes are finalized.

The \$200 monthly starting rate applies to qualifying residential properties and is not intended to represent the final price for every lawn. Larger maintained areas, difficult access, extensive trimming, unusual terrain, or additional labor requirements may result in a higher monthly rate.

Weather and turf conditions may occasionally affect scheduled mowing. Service is performed when conditions allow mowing to be completed safely and without creating unnecessary damage to the lawn.

Evo Lawn & Landscape focuses its Libertyville mowing program on recurring residential maintenance rather than one time mowing. The company’s service model is structured around maintaining established weekly routes throughout the April through November season.
