Birmingham, Alabama Sep 23, 2026 ([Issuewire.com](https://www.issuewire.com)) - Gary Barve states he has been involved in three rear-end automobile collisions (someone hit Gary Barves automobile hard from behind while he was driving on 3 separate occasions) since announcing his 2028 presidential campaign, two incidents resulting in him suffering minor injuries. Gary says records concerning the accidents are public record.

Gary Barve reports his music has generated approximately 100,000,000 (100 Million) cumulative listens / listeners via approximately 50,000 radio station song spins based on official industry standard documentation like Spincounts Reports available publicly. Gary has raised questions about huge differences between reported radio activity and the listener information displayed on popular music streaming platforms (Only 1 Daily Listener Displayed Publicly On His Spotify Page On 9/22/26) and says the discrepancy has affected his social life, professional life, financial interests and his 2028 Presidential Campaign.

Gary Barve asks all about 330,000,000 American people the question: Do you feel the Republican officials in White House, US Congress and US Senate support MERIT?

Gary has also publicly expressed opposition to USA involvement in military conflicts such as the Iran war that he believes does not directly serve American interests and Gary Barve is not happy about the fact that many Patriotic Brave American Soldiers have been wounded and many Brave Patriotic American Soldiers have been murdered in this war. Gary Barves 2028 Presidential campaign position is that decisions involving US Military action should be carefully evaluated in relation to American national interests, that is, Gary Barves USA Presidency will be 100% America First.

Regarding Epstein Files, Gary Barve wants greater transparency concerning the federal government's handling and public disclosure of records related to Jeffrey Epstein, subject to applicable laws and

privacy protections.

On economic policy, Gary questions how tariff revenues are utilized by federal government and why a large percentage of approximately \$250 Billion tariff money has not been given back to our about 330,000,000 American people, many having trouble putting food on the table for their friends and families and are struggling to pay rent for their own housing. Gary Barve also states definitively that he does not support socialism.
