

Horizon Health Expands Outpatient Drug Treatment Seattle Access With Kaiser Permanente Insurance

Horizon Health expands Seattle outpatient drug and alcohol addiction treatment center access by accepting Kaiser Permanente and multiple commercial and Medicaid plans.

Seattle, Washington Sep 23, 2026 ([Issuewire.com](https://www.issuewire.com)) - Horizon Health Drug Rehabs Seattle, an outpatient behavioral health and addiction treatment provider serving the greater Seattle area from Shoreline, Washington, announced that it now accepts **Kaiser Permanente insurance** for eligible outpatient addiction and behavioral health services.

The insurance expansion is intended to help more individuals and families seeking **outpatient drug treatment in Seattle** access substance use disorder treatment while continuing to maintain responsibilities at home, work or school.

Horizon Health provides outpatient services for individuals experiencing substance use disorders and co-occurring behavioral health concerns. Its programs include substance use disorder intensive outpatient treatment, individual and group counseling, psychiatric services, medication management, substance use disorder evaluations and relapse-prevention support.

Expanding Access to Outpatient Drug Treatment in Seattle

Unlike residential addiction treatment, outpatient programs allow appropriate patients to participate in structured treatment without living at a treatment facility.

Horizon Health's Intensive Outpatient Program provides a higher degree of structure than traditional weekly outpatient counseling while allowing participants to remain connected to their everyday lives.

The organization offers counseling and behavioral health services designed to address both substance use and mental health concerns. Treatment planning is based on individual clinical needs, and the appropriate level of care is determined through assessment rather than through insurance status alone.

People searching for **outpatient drug treatment Seattle** programs can review Horizon Health's current services through the [Horizon Health Outpatient Drug Treatment Seattle](#) website.

Horizon Health Now Accepting Kaiser Permanente

The addition of Kaiser Permanente expands the commercial insurance options available to people seeking outpatient addiction treatment through Horizon Health.

Horizon Health's current insurance information identifies **Kaiser Permanente, Aetna, Premera, First Choice Health, UnitedHealthcare, Ambetter and Regence** among its accepted commercial insurance plans. The provider also lists Medicaid options including Wellpoint, UnitedHealthcare, Community Health Plan of Washington and Coordinated Care.

Insurance coverage is plan-specific. Deductibles, copayments, network requirements, authorizations, medical-necessity criteria and covered services can differ between policies. Horizon Health therefore encourages prospective patients to have their individual benefits verified before beginning treatment.

The provider has also developed information specifically for people seeking [Kaiser-accepted outpatient addiction treatment](#). Horizon states that its intake and benefits team can work with Kaiser to confirm applicable coverage and authorization requirements and help patients understand expected costs before treatment begins.

Outpatient Addiction and Behavioral Health Services

Horizon Health's outpatient model is designed for people who need professional addiction treatment but are clinically appropriate for care outside a residential environment.

Available services include substance use disorder intensive outpatient programming, individual counseling, group counseling, psychiatric evaluations, medication management and support for co-occurring mental health conditions. Horizon also provides substance use disorder evaluations and related services for individuals who may need assessments for treatment planning or other requirements.

Horizon Health's approach recognizes that substance use and mental health conditions can occur together. Integrating behavioral health services with addiction treatment can allow treatment teams to address multiple factors affecting a patient's recovery within a coordinated outpatient setting.

The center's outpatient structure can also provide an option for individuals who need ongoing treatment while continuing employment, education or family responsibilities.

Insurance Verification Can Be an Important First Step

Insurance questions can become an additional obstacle when an individual or family is already trying to determine where to seek addiction treatment.

Horizon Health's [outpatient drug treatment Seattle](#) admissions process includes insurance verification to help prospective patients better understand whether their policy may provide benefits for recommended services.

The addition of Kaiser Permanente is part of Horizon Health's broader effort to reduce financial and administrative barriers to outpatient behavioral health and substance use disorder care in the Seattle area.

Individuals should confirm benefits directly because acceptance of an insurance company does not guarantee that every service will be covered under every plan.

Serving Seattle From Shoreline, Washington

Horizon Health is located at **17544 Midvale Ave N, Shoreline, WA 98133**, allowing the organization to serve individuals and families throughout Seattle, Shoreline and surrounding communities. Its current phone number is **206-656-8780**.

For individuals searching for ***outpatient drug treatment in Seattle***, the center provides a combination of addiction counseling, intensive outpatient programming and behavioral health services without requiring every patient to enter residential treatment.

Prospective patients can contact Horizon Health to discuss available programs, request an assessment and determine whether outpatient treatment is clinically appropriate.
