

Howell Law Firm PC Raises Awareness of Elder Abuse and Nursing Home Safety Concerns in California

Woodland Hills, California Oct 13, 2026 ([Issuewire.com](https://www.Issuewire.com)) - [Howell Law Firm PC](#) is drawing attention to elder abuse and nursing home safety issues affecting California families, as part of the firm's continued work representing victims of elder abuse and neglect.

[Elder abuse](#) in California can take several forms beyond physical harm, including neglect, emotional abuse, financial exploitation, and abandonment. In a care facility setting, warning signs may include unexplained injuries, sudden changes in mood or hygiene, unexplained financial transactions, or reluctance to speak openly in front of caregivers or staff.

California law provides certain protections and reporting options for suspected elder abuse, including reporting to Adult Protective Services or, for a licensed facility, to the California Department of Public Health. Families who suspect abuse or neglect may also have options to pursue a civil claim against a facility or caregiver, separate from any regulatory complaint.

Because elder abuse can be difficult to identify, especially when a loved one is nonverbal or hesitant to discuss their care, families are encouraged to stay involved, ask questions during facility visits, and document any concerns in writing and, where appropriate, with photographs.

Individuals who suspect a family member has experienced abuse or neglect in a California care setting are encouraged to consult with an attorney to understand what options may be available to them.

Howell Law Firm PC represents clients throughout California in personal injury and elder abuse matters. The firm is based in Woodland Hills and serves communities across the Los Angeles area and beyond. More information is available at howelljustice.com/california/elder-abuse-lawyer.
