About the book:

Gus is used to making his own decisions and living life on his own terms, but raising Sam forces him to see life differently. Fatherhood brings responsibilities he cannot simply walk away from, while his complicated history with Sam's mother, Maureen, continues to affect the family. Just as Gus begins finding his place as a father, Sarah enters his life and creates another relationship filled with hope, uncertainty, and difficult choices. As these relationships develop, Gus must face questions about love, loyalty, responsibility, and the kind of family he wants for Sam.
