İçerik üreticisi Emre Coşkun, “Işıklar Söndüğünde” adlı ilk kitabını Eylül 2026’da okuyucularla buluşturdu.

Antalya, Turkey Sep 23, 2026 (Issuewire.com) - Emre Coşkun, known on social media as “1emrecoskun”, has published his first book, “Işıklar Söndüğünde” (When the Lights Go Out), bringing his creative work into the world of fiction.

Published in September 2026, “Işıklar Söndüğünde” is a 168-page fiction work that explores human relationships, loneliness, communication, social media, digital life and the inner world of individuals.

The book takes place around stories and characters whose lives intersect during the night. Messages left unsent, conversations left unfinished, postponed goodbyes and the desire to be understood form part of the narrative.

Rather than focusing only on the visible side of modern digital life, the book also examines the relationship between being visible on social media and genuinely being understood by another person.

Emre Coşkun has previously written poetry and worked on voice-recorded poetry projects. With “Işıklar Söndüğünde”, he has expanded his creative work into the field of fiction and published his first book.

Coşkun continues to produce digital content under the name “1emrecoskun”. In addition to social media content, he works on digital projects, technology-related ideas and creative productions. His personal website also brings together information about his work and projects.

“Işıklar Söndüğünde” is available digitally through Google Play Books and can be read free of charge on supported devices, including smartphones and tablets.
