

Stonemart™ announces custom decor solutions for all spaces

Stonemart™ to offer custom décor solutions for all kinds of spaces with the prospect to order online with shipment delivery right at the doorstep to any corner of the world.

Jaipur, Rajasthan Sep 5, 2026 (Issuewire.com) - Stonemart™, one of the leading brands in the industry of stone manufacturing and export in India has recently launched a whole new series of natural stone custom décor solutions for all types of residential and commercial spaces. Right from spacious indoor and outdoor areas like foyer, hallway, courtyard and garden to confined spaces like staircase nook, console or even the tabletop.

For more than 2 decades, the company has been manufacturing stone masterpieces including luxury stone statues or sculptures, furniture, planters, water features, fountains etc. Stonemart™ offers very good options to help you cover a larger area with an awe-inspiring focal point and even fully beautify restrictive layouts without forming clutter. Right from pristinely hand carved [stone Buddha statues](#) 2ft weighing around 80 kg and 3 feet 180 kg stone Gautam Buddha to the ones hovering 5 feet over 1 ton luxury sculptures, the deity can be ordered in a gamut of custom sizes for the construction of perfect Zen Gardens outdoors as well as positive energy fields indoors. The same goes with the sculptures of Hindu

Gods, elephant sculptures, and abstract sculptures for the layouts with modern theme.

Likewise, designer, modern water fountains and water features out of stone are available to order for spaces right from 10" for tabletops to 24" perfectly suited for your console, balcony space or garden. All the products have been carved by hands of the most skilled artisans with no mixing in the purity of manufacturing composition. Making them perfect for Vastu gain in terms of financial prosperity, happiness and harmony in family relationships. For instance, the installation of Kuber sculpture (God of wealth) in the North or Northeast (Ishan Kona) direction of your home or office Invites steady income streams and prevents sudden cash outflows. Helping with the growth in business profits and bringing favorable returns on investments. Similarly, as per both Vastu Shastra and Feng Shui, the constant motion of the moving fountain water breaks stagnation and helps with career and income prospects.

The custom designs offered at Stonemart™ have even entered the domains of auspicious God sculptures. For instance, stone lord [Ganesha statues](#) are traditionally associated with spiritual growth, peace, happiness and prosperity, especially when installed as per Vaastu facing northeast, north or west. Particularly, when placed in the foyer, courtyard, hallway or at the entrance to seek blessings while entering or leaving the property, specifically to inculcate values in children right from an early age. But what about those who wish to integrate Ganesha beyond the realms of spiritual vibes or Vastu? For instance, keeping one in the garden as a symbol of modern art. Here, the company representative unveils the concept of symbolic Ganesha or modern abstract Ganesha. Something that can be kept outdoors skyrocketing the contemporary aesthetics without influencing the Vastu balance.

Stonemart™ India is bringing plethora of customized décor solutions that can even convert a lackluster space into a selfie point. Especially for those, who wish to not just make their digital space count but also engaging enough in the burgeoning era of social media. When asked Mr. Swadesh Rohilla, the Founder of Stonemart™ during an interview, what made his brand so successful for the last two decades when every other day a new player is trying to enter the market, he simply replied, *"quality, integrity and transparency!"*

"In today's world of AI slop, we still never use AI videos or photoshopped images. We only showcase 100% real products, manufactured and packed in-house and even the display is actual. One can see them live on our website, actually feel them to every inch of the texture and there will be not an iota of difference between what they see and order and what they receive at their doorstep. But yes, all the products must be ordered exclusively from our website only. All our factories are in and around Jaipur, Rajasthan only with no other branches or stores anywhere else in the world.", he added further.
