Unbox English by Bambinos.live Brings Live Online English Learning to Children Across 30+ Countries

Phonics, Storytelling and Public Speaking Classes by Bambinos.live's Unbox English

Bengaluru, Karnataka Sep 11, 2026 (Issuewire.com) - Bambinos.live is expanding its live online learning programs for children across India and **30+ countries**, including the Middle East. Its English learning program, **Unbox English**, focuses on phonics, reading, storytelling, public speaking, creative writing, and English communication.

Unbox English offers **online classes for kids** through live 1:1 and small-group sessions. Children can practise speaking, reading, listening, and writing through activities, conversations, stories, and guided exercises.

The program is available to families in countries including the **United Arab Emirates, Saudi Arabia, Qatar, Kuwait, Oman, and Bahrain**, along with learners across India and other parts of the world.

English learning through live classes

Unbox English includes **phonics online classes** for children who are building their early reading and pronunciation skills. The program also offers story telling classes where children can listen to stories, retell them, and share their own ideas.

For children working on communication skills, the program includes public speaking classes and opportunities to learn public speaking online. These sessions give children regular practice in speaking clearly, presenting ideas, and participating in conversations.

The program also includes confidence building classes that help children practise speaking and

expressing themselves during live sessions.

For younger learners, Bambinos.live also offers online nursery classes as part of its online learning programs.

Learning programs for different age groups

Bambinos.live offers learning programs across different subjects and age groups. Along with English learning, its programs include mathematics, science, and Indian traditions.

Its mathematics offering includes English Olympiad for Class 1 to Class 8, while Unbox English covers skills such as phonics, reading, storytelling, public speaking, and creative writing.

For children looking specifically for individual English speaking practice, Unbox English also offers a 1 to 1 English speaking course online. Parents can choose between 1:1 and small-group classes based on their child's learning needs.

The program also covers searches such as English public speaking class, phonics for kids, phonics online courses, and phonics online classes through its English learning curriculum.

Featured on Shark Tank India

Bambinos.live was featured on Shark Tank India Season 4, introducing the company and its children's learning programs to a wider audience.

Ashish Gupta, Founder & CEO of Bambinos.live, started the company after watching his own daughter excel at recall but struggle to explain. This experience shaped his view of children's education and the importance of teaching children to think and communicate, not only remember information.

Bambinos.live's vision is to build learning experiences that help children develop thinking, communication, and expression.

About Bambinos.live

Bambinos.live is a learning experience company founded in 2020 by Ashish Gupta. The company offers online learning programs for children across English, mathematics, science, and Indian traditions. Bambinos.live has reached families across 30+ countries, including countries in the Middle East, and was featured on Shark Tank India Season 4.
