

Wahni IT Solutions Named "Best Middle East Partner for 2026" and Becomes the UAE's Only Trusted Gold Partner

Wahni IT Solutions has been named 2026 Best Middle East Partner and is now the UAE's only Trusted Gold Partner for Frappe ERPNext, with the highest PMM rating in the Frappe partner ecosystem.

Dubai, United Arab Emirates Sep 4, 2026 ([IssueWire.com](https://www.issuewire.com)) - Wahni IT Solutions, the most trusted ERPNext implementation partner in the UAE, has been awarded the Best Middle East Partner title for 2026 and now holds the distinction of being the only Trusted Gold Partner for Frappe ERPNext in the UAE, alongside the highest Process Maturity Model (PMM) rating achievable in the Frappe partner ecosystem.

[Wahni IT Solutions](#), the most trusted ERPNext implementation partner in the UAE, has been recognized as the Best Middle East Partner for 2026 by Frappe Technologies. The award reflects Wahni's consistent delivery quality, customer outcomes, and long-term partnership with the Frappe ecosystem across the region.

Alongside this recognition, Wahni has also been confirmed as the only [Trusted Frappe ERPNext Gold Partner in the UAE](#), a tier awarded to a select group of implementation partners worldwide based on technical capability, project volume, and customer satisfaction.

UAE's Only Trusted Gold Partner, With the Highest Process Maturity Rating

In addition to its Gold Partner status, Wahni has achieved Process Maturity Model Level 5 (PMM 5), the highest level of process maturity recognized within the Frappe partner network. PMM 5 reflects a partner's ability to consistently deliver ERPNext implementations through well-defined, measured, and continuously improving processes from requirement gathering to go-live and long-term support.

"Being named Best Middle East Partner for 2026 and achieving PMM 5 as the UAE's only Trusted Gold Partner are a reflection of years of disciplined delivery and genuine focus on customer outcomes," said a representative of Wahni IT Solutions. "These milestones aren't just recognition for us; they're a signal to businesses in the UAE that they are working with the most capable and reliable ERPNext partner in the market."

Highest Frappe Customer Retention in the UAE

Wahni also reports the highest Frappe customer retention rate among implementation [partners in the UAE](#). Long after go-live, the majority of Wahni's clients continue with the company for ongoing support, system enhancements, and additional module rollouts. This is a reflection of the trust built through Wahni's end-to-end implementation approach and responsive post-launch support.

More Frappe Success Stories Across the UAE

Building on previously shared success stories with Fashion Planet, Pogliano BusBar, MK Aluminum & Glass, and Dubai Engineering (DECO), Wahni continues to add new [ERPNext](#) success stories across UAE industries, including retail, manufacturing, trading, and engineering. Each engagement reinforces the same pattern: manual processes are replaced with automated, connected workflows and measurable time and cost savings for the client.

About Wahni IT Solutions

Wahni IT Solutions is based in Dubai and is dedicated to and focused on ERPNext implementation. The founding team has a combined technical experience of more than 20 years in ERPNext implementation across multiple manufacturing and trading industries. Having rolled out ERPNext for more than 120 businesses across the GCC and served over 400 clients worldwide, Wahni has emerged as the most trusted ERPNext implementation partner in the UAE, now further distinguished as the UAE's only Trusted Gold Partner, a PMM 5-certified partner, and the winner of Frappe's Best Middle East Partner award for 2026.

Renowned for their unwavering commitment to quality and on-time delivery, Wahni's team of seasoned professionals combines deep functional and technical expertise with an end-to-end approach from in-depth client requirements and strategic planning to seamless system integration and accurate data migration, ensuring every implementation aligns with the client's operational goals and delivers a smooth, effective digital transformation.
