

WH Labs Expands Local Community Engagement Through Houston West Chamber of Commerce Membership

Houston, Texas Sep 16, 2026 ([Issuewire.com](https://www.issuewire.com)) - WH Labs, a Houston-based industrial welding, independent testing, and analysis provider, has joined the **Houston West Chamber of Commerce**, marking another step in the company's ongoing engagement with the local business and industrial community.

The new Chamber membership allows WH Labs to connect with businesses, professionals, and organizations throughout the Houston area while contributing its technical expertise and industry experience to the broader business community.

WH Labs provides specialized testing, analysis, certified welding, and consulting services for industrial and manufacturing applications. The company's capabilities include **metallurgical testing, weld testing, failure analysis, non-destructive testing (NDT)**, [industrial welding and fabrication](#), and **technical consulting**.

The laboratory operates as an **ISO 9001:2015 and ISO/IEC 17025:2017 accredited facility**, supporting customers who require reliable testing and analysis for materials, components, welds, and industrial equipment.

"We're pleased to be joining the Houston West Chamber of Commerce and look forward to becoming more involved in the Houston business community," said **Ryan Talbert, CEO of WH Labs**.

Based in Houston, WH Labs serves customers across a range of industrial sectors, with services designed to help organizations evaluate material performance, investigate equipment failures, assess

weld quality, fabricate welds, and address technical challenges.

The company's Houston location also positions it within one of the nation's largest and most diverse industrial markets, where manufacturing, energy, petrochemical, power, and related industries rely on specialized testing and engineering support.

Through its [membership in the Houston West Chamber of Commerce](#), WH Labs looks forward to developing new business relationships, participating in local initiatives, and strengthening its connection with companies and professionals across the Houston region.

About WH Labs

WH Labs is a Houston-based industrial welding, fabrication, testing, and analysis company serving customers in demanding industrial environments. The company provides welding and fabrication, welding procedure development and qualification, weld testing, metallurgical testing, non-destructive testing, failure analysis, and technical consulting.

With its combination of hands-on welding capabilities and in-house testing and analysis expertise, WH Labs provides a **one-stop solution for industrial customers that need to qualify, fabricate, weld, inspect, test, or troubleshoot materials and components.**
