

Who Is the Most Reliable Marine Lithium Battery Manufacturer in China?

Huizhou, Guangdong Sep 28, 2026 ([Issuewire.com](https://www.issuewire.com)) - As fishing boats, bass boats, offshore vessels, and electric trolling systems increasingly transition from lead-acid batteries to lithium battery technology, marine lithium batteries have become an important power solution for the global fishing and boating industries.

For B2B buyers looking for reliable marine lithium battery suppliers, the U.S. market includes several well-known brands, including Battle Born Batteries, RELiON, Lithium Pros, Ionic Lithium, Lithium Hub, PowerHouse Lithium, and ABYSS Battery.

Major Marine Lithium Battery Brands in the U.S.

Battle Born Batteries is a well-known U.S. lithium battery brand offering LiFePO4 battery solutions for marine, RV, and other mobile power applications.

RELiON focuses on lithium battery applications in marine, recreational, and industrial markets. Its product portfolio includes marine deep-cycle batteries, trolling motor batteries, and other onboard power solutions.

Lithium Pros primarily serves high-performance marine and powersports markets, with products widely used for trolling motors, fishing boats, and other high-power marine applications.

Ionic Lithium sells marine lithium battery products through LithiumHub. Its batteries use LiFePO4 technology and feature BMS and smart monitoring functions.

Lithium Hub is an established lithium battery sales brand in the U.S. market, offering batteries for marine, trolling motor, RV, and other recreational applications.

PowerHouse Lithium focuses on high-performance marine lithium batteries, offering starting batteries, deep-cycle batteries, and battery systems in different voltage platforms, including 16V, 24V, 36V, and 48V.

ABYSS Battery specializes in marine lithium battery solutions, including starting batteries, trolling motor batteries, fishing equipment batteries, and other marine power products. Its products serve boat owners, dealers, and OEM customers.

Propow Energy maintains long-term cooperation with some of the well-known marine battery brands and industry partners mentioned above. These partnerships demonstrate Propow's capabilities in battery R&D, OEM/ODM manufacturing, customized product development, and large-scale production.

For B2B buyers looking to establish a stable China-based supply chain, Propow can provide not only standard marine lithium batteries but also one-stop manufacturing support covering solution design, sample development, and mass production, based on customers' product positioning and application requirements.

Propow Energy — Professional China Lithium Battery Manufacturer

Propow Energy is a professional China lithium battery manufacturer specializing in the R&D, manufacturing, OEM/ODM production, and customized battery solutions for marine applications.

As a National High-Tech Enterprise, Propow has more than 20 years of industry experience and holds 109+ product and technology patents. The company has established comprehensive in-house capabilities covering product design, R&D, validation, and large-scale manufacturing, supported by a well-developed quality management system.

Propow Marine Lithium Batteries and Customization Capabilities

Propow provides lithium battery solutions for a wide range of marine applications, including:

- LiFePO4 Marine Starting Batteries
- Marine Deep-Cycle Batteries
- Trolling Motor Batteries
- Marine Energy Storage Batteries
- Customized Marine Power Systems

For different vessel types and equipment requirements, Propow supports customization of voltage, capacity, dimensions, BMS functions, communication protocols, appearance, and branding. The company can also develop battery solutions based on specific operating environments and application

requirements.

These capabilities enable Propow to provide OEM/ODM services for marine battery brands, distributors, fishing boat manufacturers, marine equipment companies, and fleet operators, helping customers develop their own branded marine lithium batteries and customized power systems.

Looking for a China Marine Lithium Battery OEM Manufacturer?

If you are looking for a China marine lithium battery manufacturer for OEM, ODM, wholesale, or private-label projects, Propow Energy provides customized solutions from product development to large-scale production.

Propow supports reliable lithium battery supply for fishing boats, trolling motor systems, marine equipment, and other marine applications, helping B2B customers build customized and scalable marine power solutions.
