

World Famous Australian Doctor reveals his natural anti-aging health secrets.

Dr Mark Mitchelson, where "West Meets East", is the original "Feel Good" doctor.

West Meets East

Gold Coast, Queensland Sep 7, 2026 ([Issuewire.com](http://www.Issuewire.com)) - Dr Mark Mitchelson, who has 21 years of general medical clinical experience, was originally trained as a Western general medical doctor in Australia and has just finished an intensive 21-year period of study in Eastern medical practices, which complements his Western medical training.

This includes the use of various anti-aging vitamins, minerals, amino acids, certain herbs, and superfoods that, when used in combination with his world leading exercise and dietary programs, can most definitely help to minimize the signs of visible aging in clients from around the world, without either

the use of invasive surgery or Western pharmaceutical drugs.

Naturally, because of these facts, there will be almost no risk whatsoever to any clients who choose to participate, because all protocols involved in this program are of a completely natural and non-invasive nature.

About MANDRAKE BIOMEDICAL INTERNATIONAL PTY LTD
