

Axis Marketing Launches to support small businesses

New full-service agency pairs bold creative with hands-on strategy to drive measurable growth for small business clients

St. Louis, Missouri Oct 5, 2026 ([Issuewire.com](https://www.issuewire.com)) - Axis Marketing, a newly launched full-service marketing agency, today announced its official opening, bringing strategic branding, digital marketing and advertising services to small and local businesses. Built on the idea that growth should move in every direction — online, in-store, and across every customer touchpoint — the agency offers a hands-on alternative to the one-size-fits-all packages most small businesses are offered.

What Axis Marketing Offers

Axis Marketing works directly with small business owners to build and execute marketing plans across:

- Brand identity and design

- Social media management and content creation
- Local SEO and Google Business optimization
- Earned & Paid Media exposure
- Streamlined and Detailed Creator/Influencer campaigns
- Email Marketing
- In-Person activations
- National brand exposure with outreach & Sponsorship activities
- Detailed Reporting & Analytics

Unlike larger agencies built for enterprise budgets, Axis Marketing designs every engagement around what a small or large business can realistically invest, with month-to-month flexibility and a dedicated point of contact rather than a rotating account team.

Leadership Perspective

"Small business owners don't need another agency that treats them like a line item. They need a partner who understands their market, moves fast, and can deliver measurable results" said Brandon Hamilton, Co-Founder of Axis Marketing. "We built Axis to give small and local businesses the kind of strategic, full-service support that's usually reserved for brands with much bigger budgets."
