

BatchOutput for Microsoft PowerPoint Adds macOS 27, Native Silicon Support

Zevrix Solutions announces BatchOutput PPT 3, a milestone upgrade to the company's output automation tool for Microsoft PowerPoint. BatchOutput solves the problem of batch exporting to PDF and printing from PowerPoint on the Mac market.

Toronto, Ontario Oct 11, 2026 ([Issuewire.com](https://www.issuewire.com)) - Zevrix Solutions announces BatchOutput PPT 3, a milestone update to company's [output automation solution for Microsoft PowerPoint](#) on macOS. The only batch export software for PowerPoint on the Mac market, BatchOutput PPT enables customers to eliminate repetitive tasks through automation of professional PDF production and printing of presentations.

The upgrade adds compatibility with just-released macOS 27 Golden Gate. The upgrade required a major rewrite of certain app functions in order to address several bugs introduced by Apple in the new system. In addition, BatchOutput PPT was rebuilt as a Silicon-native application, which ensures compatibility with future macOS versions and Mac models.

In addition to batch printing, BatchOutput PPT allows users perform [professional PDF conversion directly from PowerPoint](#) eliminating the need for time consuming post-processing. Users gain direct control over advanced options, including:

-[Save as PDF and print multiple PowerPoint presentations](#) automatically.

-[Save individual PowerPoint pages as separate PDF files.](#)

-Create variable PDF file names using page number, date, user name, and other values.

-[Encrypt and password-protect PDF](#) from unauthorized printing, copying, and viewing.

-Downsample and compress images to reduce PDF file size

-Change PDF color tone, brightness and other properties.

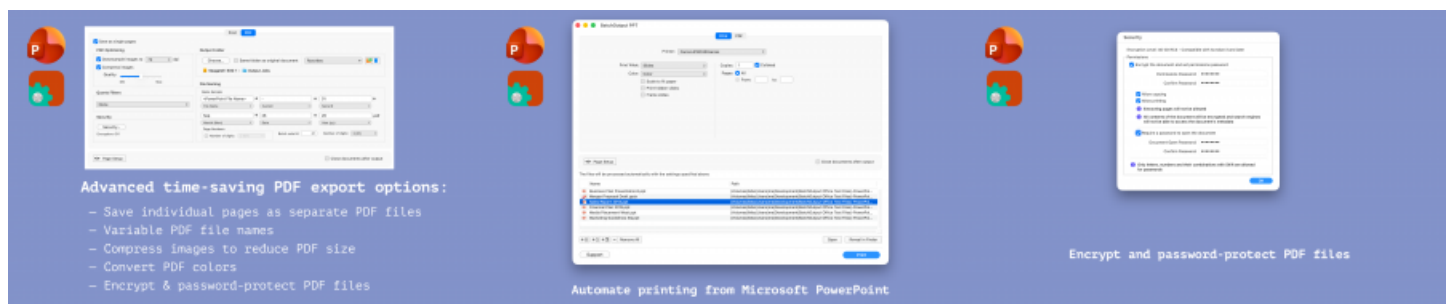

BatchOutput PPT is part of the Zevrix BatchOutput family of products that also includes output automation solutions for Microsoft Excel, Word, PDF workflows, and Adobe InDesign.

Pricing and Availability

BatchOutput PPT can be purchased for US\$39.95 from the Zevrix website as well as from Mac App Store and authorized resellers. Trial is also available for download. The update \$20 for licensed users of earlier versions. BatchOutput PPT requires macOS 12 - 27.x and Microsoft PowerPoint 2016 and later.

About Zevrix Solutions

Located in Toronto, Canada, Zevrix Solutions provides productivity solutions for Adobe Creative Cloud software, PDF and graphic file diagnostics, digital delivery and Microsoft Office on macOS. Zevrix Solutions makes it easier for professionals to achieve more while doing less by automating their everyday tasks, producing error-free documents, saving disk space and cutting down on production costs.
